

STALWART WOODEN LOADING BLOCKS - SINCLAIR INTERNATIONAL

223 REMINGTON 50 ROUND LOADING BLOCK

[Reloading](#) > [Case Preparation](#) > [Loading Blocks](#)

Reloaders who prefer a traditional hardwood block can use our wooden loading blocks which have the same machined fit as our "Poly" blocks. Each block is machined from select hardwood and has 50 holes (except for #LB-9, which has 32 holes). Finger grooves are machined into the sides for a sure grip. See chart for ordering information.

STALWART WOODEN LOADING BLOCKS SINCLAIR INTERNATIONAL 223 REMINGTON 50 ROUND LOADING BLOCK Safety Instruction Guide

Introduction

Thank you for choosing the STALWART Wooden Loading Blocks by Sinclair International. This guide provides essential safety instructions to ensure the safe and effective use of your loading block. Please read this guide carefully before use, and keep it for future reference.

General Safety Guidelines

- Ensure that the loading block is used for its intended purpose only.
- Keep the loading block out of reach of children and vulnerable individuals.
- Regularly inspect the loading block for any signs of wear or damage before use.
- Always follow the manufacturer's instructions for loading and unloading cartridges.
- In case of any malfunction or damage, cease use immediately and consult a qualified professional.

Specific Safety Precautions for Use

- Do not exceed the maximum capacity of 50 rounds for the loading block (except for model #LB9, which holds 32 rounds).
- Use only compatible cartridges (223 Remington) as specified by the manufacturer.
- Ensure the loading block is placed on a stable and flat surface during use.
- Avoid using the loading block in wet or damp conditions to prevent damage to the wood.
- Do not leave the loading block unattended while in use.

Instructions for Installation and Usage

1. Preparation:

- Ensure your hands are clean and dry before handling the loading block.
- Place the loading block on a stable, flat surface away from any distractions.

2. Loading Cartridges:

- Take a cartridge and align it with one of the holes in the loading block.
- Gently push the cartridge down into the hole until it is securely in place.
- Repeat this process until all desired holes are filled, ensuring not to exceed the block's capacity.

3. Unloading Cartridges:

- To unload, grasp the cartridge firmly and pull it straight out of the hole.
- Do not twist or force the cartridge out, as this may damage the loading block.

4. Cleaning and Maintenance:

- Wipe the loading block with a dry cloth after use to remove any dust or debris.
- Avoid using harsh chemicals or cleaners that may damage the wood.
- Store the loading block in a dry place to maintain its integrity.

Disposal Instructions

- When disposing of the loading block, ensure that it is done in an environmentally friendly manner.
- Check local regulations for guidelines on the disposal of wooden products.
- If the loading block is damaged beyond repair, consider recycling the wood if possible.

Contact Information for Further Support

For any inquiries regarding safety, usage, or product information, please refer to the contact information provided on the product packaging or visit the manufacturer's website for assistance.

Thank you for your attention to these safety guidelines. Enjoy using your STALWART Wooden Loading Blocks responsibly!
