

# SINCLAIR CHAMBER PLUG - SINCLAIR INTERNATIONAL 221 REMINGTON FIREBALL CHAMBER PLUG

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Guides](#)

This unique product seals the chamber and bore to prevent solvents and oils from running back into the action when the rifle is left in an upright position. For heavily fouled barrels, we use these plugs to seal the chamber and then fill the barrel with our favorite solvent. Then we let the barrel sit for a while. If left overnight, you should seal the muzzle end with tape to prevent evaporation. Make sure you fill the barrel all the way to the muzzle end. If storing guns for a long time, these plugs can keep rust preventative agents and oils from seeping down into the action and trigger group area. Oil and debris washed in with excess solvent harms more triggers than just about anything. Replacement O-rings come in packs of 5.

# Safety Instruction Guide for SINCLAIR CHAMBER PLUG

## Introduction

Thank you for choosing the SINCLAIR CHAMBER PLUG. This product is designed to seal the chamber and bore of your firearm, preventing solvents and oils from entering the action when the rifle is stored upright. Proper use and care of this product will enhance your firearm's performance and longevity. Please read this safety instruction guide carefully to ensure safe and effective use.

## General Safety Guidelines

- Always follow the manufacturer's instructions for your firearm.
- Keep the chamber plug out of reach of children and vulnerable individuals.
- Regularly inspect the chamber plug for wear or damage.
- Use only as intended; do not modify the product.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform to stay informed about product safety.

## Specific Safety Precautions for Use

- Ensure the firearm is unloaded before installing the chamber plug.
- Do not leave solvents in the barrel for extended periods without checking for leaks.
- Avoid using excessive force when inserting or removing the chamber plug.
- Seal the muzzle end with tape if the barrel is filled with solvent and left overnight.
- Store the firearm in a cool, dry place to prevent rust and corrosion.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure your firearm is completely unloaded.
- Clean the chamber and bore of any debris or residue.

### 2. Installation of the Chamber Plug

- Insert the chamber plug into the chamber of the firearm until it is securely seated.
- Ensure the plug fits snugly to create a proper seal.

### 3. Filling the Barrel with Solvent (if applicable)

- If using a solvent, fill the barrel until it reaches the muzzle end.
- Make sure to seal the muzzle end with tape to prevent evaporation.

### 4. Storage

- Store the firearm upright with the chamber plug in place.
- If storing for an extended period, regularly check for any signs of rust or corrosion.

### 5. Removal of the Chamber Plug

- Carefully remove the chamber plug by pulling it straight out of the chamber.
- Clean the plug and store it in a safe place for future use.

## **Disposal Instructions**

- Dispose of any worn or damaged chamber plugs in accordance with local regulations.
- Do not throw the chamber plug in regular household waste. Check for designated disposal sites or recycling programs.

## **Contact Information for Further Support**

For any questions or concerns regarding the SINCLAIR CHAMBER PLUG, please refer to the contact information provided by your retailer or manufacturer. Ensure you have your product details ready for a more efficient response.

Thank you for prioritizing safety and for choosing the SINCLAIR CHAMBER PLUG. Your attention to these guidelines will help ensure a safe and enjoyable experience with your firearm.
