

SINCLAIR CHAMBER PLUG - SINCLAIR INTERNATIONAL 35 REMINGTON CHAMBER PLUG

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Guides](#)

This unique product seals the chamber and bore to prevent solvents and oils from running back into the action when the rifle is left in an upright position. For heavily fouled barrels, we use these plugs to seal the chamber and then fill the barrel with our favorite solvent. Then we let the barrel sit for a while. If left overnight, you should seal the muzzle end with tape to prevent evaporation. Make sure you fill the barrel all the way to the muzzle end. If storing guns for a long time, these plugs can keep rust preventative agents and oils from seeping down into the action and trigger group area. Oil and debris washed in with excess solvent harms more triggers than just about anything. Replacement O-rings come in packs of 5.

Safety Instruction Guide for Sinclair Chamber Plug

Introduction

Thank you for choosing the Sinclair Chamber Plug. This product is designed to enhance the safety and maintenance of your firearm by preventing solvents and oils from entering the action when the rifle is stored in an upright position. This guide provides essential safety instructions and recommendations for the proper use and disposal of this product, ensuring compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Ensure that the Sinclair Chamber Plug is used only with firearms that are compatible with the 35 Remington cartridge.
- Always read and follow the manufacturer's instructions before using this product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the chamber plug for wear and damage, especially the Orings, which are replaceable.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recall updates through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Before inserting the chamber plug, ensure that the firearm is completely unloaded and safe to handle.
- When using the chamber plug for heavily fouled barrels, ensure that the barrel is filled with solvent only to the muzzle end to prevent overflow.
- If left overnight, seal the muzzle end with tape to prevent solvent evaporation.
- Avoid using excessive force when inserting or removing the chamber plug to prevent damage to the firearm or the plug itself.
- Do not use the chamber plug in a manner that is not specified in the instructions, as this may lead to hazardous situations.
- Be cautious of any solvents or oils that may be harmful to skin or eyes; wear appropriate protective gear when handling.

Instructions for Installation and Usage

1. Preparation:

- Confirm that the firearm is unloaded and pointed in a safe direction.
- Gather necessary materials, including the Sinclair Chamber Plug and any solvents you plan to use.

2. Inserting the Chamber Plug:

- Locate the chamber of the firearm.
- Carefully insert the chamber plug into the chamber until it is fully seated. Ensure that the Oring is properly positioned to create a seal.

3. Using Solvents:

- If using solvents, pour the solvent into the barrel until it reaches the muzzle end.
- If storing the firearm for an extended period, seal the muzzle end with tape to prevent evaporation.

4. Removing the Chamber Plug:

- When ready to use the firearm, carefully remove the chamber plug by pulling it straight out of the chamber.
- Dispose of any excess solvent according to local regulations.

5. Maintenance:

- Regularly check the Orings for wear and replace them as necessary. Replacement Orings are available in packs of 5.

Disposal Instructions

- Dispose of the Sinclair Chamber Plug and any used materials in accordance with local waste disposal regulations.
- Do not dispose of the chamber plug in regular household waste if it contains hazardous materials.
- Check with local authorities for proper disposal methods for solvents and oils.

Contact Information for Further Support

For any questions or concerns regarding the Sinclair Chamber Plug, please refer to the manufacturer's website or contact their customer service for assistance. Ensure that you have the product information ready for any inquiries.

By following these safety instructions, you can ensure the safe and effective use of the Sinclair Chamber Plug while maintaining compliance with the EU General Product Safety Regulation. Thank you for prioritizing safety in your firearm maintenance practices.
