

# SINCLAIR CHAMBER PLUG - SINCLAIR INTERNATIONAL 6MM REMINGTON CHAMBER PLUG

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Guides](#)

This unique product seals the chamber and bore to prevent solvents and oils from running back into the action when the rifle is left in an upright position. For heavily fouled barrels, we use these plugs to seal the chamber and then fill the barrel with our favorite solvent. Then we let the barrel sit for a while. If left overnight, you should seal the muzzle end with tape to prevent evaporation. Make sure you fill the barrel all the way to the muzzle end. If storing guns for a long time, these plugs can keep rust preventative agents and oils from seeping down into the action and trigger group area. Oil and debris washed in with excess solvent harms more triggers than just about anything. Replacement O-rings come in packs of 5.

## Attributes

- Name: [SINCLAIR INTERNATIONAL 6MM REMINGTON CHAMBER PLUG](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749001561
- Mfr. No.: PG9
- Cartridge: 6 mm Remington, 7 x 57 mm Imp 40,257 Roberts
- Delivery weight: 0.032kg
- Shipping height: 10mm
- Shipping width: 8mm
- Shipping length: 66mm

# SINCLAIR CHAMBER PLUG USER SAFETY INSTRUCTIONS

## Introduction

Thank you for choosing the Sinclair Chamber Plug. This product is designed to enhance the safety and maintenance of your firearm by preventing solvents and oils from entering the action when the rifle is stored upright. Please read this guide carefully to ensure safe and effective use.

## General Safety Guidelines

- Always handle firearms with care and respect.
- Ensure the firearm is unloaded before using or installing the chamber plug.
- Keep the chamber plug out of reach of children and vulnerable individuals.
- Regularly check for product recalls and safety updates.
- Report any unsafe products or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Do not use the chamber plug if it is damaged or worn.
- Ensure that the chamber plug is properly sealed to avoid leaks.
- When using solvents, follow the manufacturer's safety instructions and use in a wellventilated area.
- Avoid prolonged exposure to solvents and oils; use gloves if necessary.
- Do not leave the barrel filled with solvent for extended periods without sealing the muzzle end.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure the firearm is completely unloaded and pointed in a safe direction.
- Gather necessary materials: chamber plug, solvent, and tape.

### 2. Installation

- Insert the chamber plug into the chamber of the firearm.
- Ensure it fits snugly and creates a proper seal.

### 3. Filling the Barrel

- Fill the barrel with your preferred solvent until it reaches the muzzle end.
- If storing overnight, seal the muzzle end with tape to prevent evaporation.

### 4. Storage

- Store the firearm in a safe, dry place away from children and pets.
- If storing for an extended period, ensure that the chamber plug remains in place to prevent rust and oil seepage.

### 5. Removal

- When ready to use the firearm, carefully remove the chamber plug.
- Clean any excess solvent from the barrel before firing.

## **Disposal Instructions**

- Dispose of the chamber plug according to local regulations.
- Do not dispose of the chamber plug in regular household waste if it is contaminated with solvents or oils.
- Check with local waste management authorities for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the use of the Sinclair Chamber Plug, please consult the product packaging or your retailer for further assistance.

Thank you for prioritizing safety and maintenance with the Sinclair Chamber Plug. Enjoy your shooting experience responsibly!
