

# SINCLAIR CHAMBER PLUG - SINCLAIR INTERNATIONAL 222 REMINGTON CHAMBER PLUG

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Guides](#)

This unique product seals the chamber and bore to prevent solvents and oils from running back into the action when the rifle is left in an upright position. For heavily fouled barrels, we use these plugs to seal the chamber and then fill the barrel with our favorite solvent. Then we let the barrel sit for a while. If left overnight, you should seal the muzzle end with tape to prevent evaporation. Make sure you fill the barrel all the way to the muzzle end. If storing guns for a long time, these plugs can keep rust preventative agents and oils from seeping down into the action and trigger group area. Oil and debris washed in with excess solvent harms more triggers than just about anything. Replacement O-rings come in packs of 5.

# Safety Instruction Guide for SINCLAIR CHAMBER PLUG

## Introduction

Thank you for choosing the SINCLAIR CHAMBER PLUG. This product is designed to provide an effective seal for the chamber and bore of your firearm, helping to prevent solvents and oils from entering the action when the rifle is stored upright. Please read this safety instruction guide carefully to ensure safe and effective use.

## General Safety Guidelines

- Ensure the product is used only as intended.
- Keep the product out of reach of children.
- Always handle firearms safely and in accordance with local laws and regulations.
- Regularly inspect the chamber plug for wear and tear.
- Dispose of any damaged plugs immediately.

## Specific Safety Precautions for Use

- Before inserting the chamber plug, ensure the firearm is unloaded.
- Do not use the chamber plug if it shows signs of damage or wear.
- When using solvents, ensure they are compatible with your firearm.
- Avoid prolonged exposure of the chamber plug to harsh chemicals.
- If using the product for extended storage, ensure it is sealed correctly to prevent evaporation.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure your firearm is completely unloaded.
- Clean the barrel and chamber to remove any debris.

### 2. Installation:

- Insert the SINCLAIR CHAMBER PLUG into the chamber of the firearm.
- Ensure it fits snugly to create an effective seal.

### 3. Usage:

- For heavily fouled barrels, fill the barrel with your preferred solvent after sealing the chamber.
- Allow the barrel to sit for the recommended time, ideally overnight.
- Seal the muzzle end with tape to prevent solvent evaporation if storing overnight.

### 4. Storage:

- When storing firearms for an extended period, ensure the chamber plug remains in place.
- Check the integrity of the plug periodically.

### 5. Replacement:

- Replacement Orings are available in packs of 5. Replace Orings as needed to maintain a proper seal.

## Disposal Instructions

- Dispose of used or damaged chamber plugs according to local regulations.
- Do not dispose of the product in regular household waste.
- Check with local waste management for proper disposal methods.

## Contact Information for Further Support

For any safety inquiries or concerns regarding the SINCLAIR CHAMBER PLUG, please refer to the contact details provided with your product packaging or visit our official website for support resources.

## Reporting Unsafe Products

- If you encounter any unsafe products or accidents, report them to the relevant authorities.
- Keep informed about recall updates by checking the EU's Safety Gate platform.

Thank you for taking the time to read this safety instruction guide. Your safety and satisfaction are our priority.
