

SINCLAIR CHAMBER PLUG - SINCLAIR INTERNATIONAL 284 WINCHESTER CHAMBER PLUG

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Guides](#)

This unique product seals the chamber and bore to prevent solvents and oils from running back into the action when the rifle is left in an upright position. For heavily fouled barrels, we use these plugs to seal the chamber and then fill the barrel with our favorite solvent. Then we let the barrel sit for a while. If left overnight, you should seal the muzzle end with tape to prevent evaporation. Make sure you fill the barrel all the way to the muzzle end. If storing guns for a long time, these plugs can keep rust preventative agents and oils from seeping down into the action and trigger group area. Oil and debris washed in with excess solvent harms more triggers than just about anything. Replacement O-rings come in packs of 5.

Safety Instruction Guide for SINCLAIR Chamber Plug

Introduction

Thank you for choosing the SINCLAIR Chamber Plug. This product is designed to seal the chamber and bore of your firearm, preventing solvents and oils from running back into the action when the rifle is left in an upright position. It is essential to follow these safety instructions to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure the product is used only with firearms that are compatible with the specified cartridge sizes.
- Always handle firearms with care and follow standard safety procedures.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check the product for wear and tear, especially the Orings.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Before using the chamber plug, ensure the firearm is unloaded and pointed in a safe direction.
- Do not leave the firearm unattended while the chamber plug is in place.
- Avoid using the chamber plug with heavily fouled barrels without proper cleaning beforehand.
- Seal the muzzle end with tape if the firearm is left overnight to prevent solvent evaporation.
- Ensure the barrel is filled to the muzzle end when using solvents to avoid incomplete sealing.
- Do not use the product if you notice any damage or defects.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is completely unloaded.
- Clean the barrel if it is heavily fouled.

2. Installation:

- Insert the chamber plug into the chamber of the firearm.
- Ensure it fits snugly and securely.

3. Usage:

- Fill the barrel with your preferred solvent, ensuring it reaches the muzzle end.
- Allow the solvent to sit for the recommended time based on the product's instructions.
- If storing the firearm for an extended period, seal the muzzle with tape to prevent evaporation.

4. Removal:

- Carefully remove the chamber plug after the solvent has had time to work.
- Clean the chamber and bore as needed.

Disposal Instructions

- Dispose of any used Orings and chamber plugs in accordance with local regulations.
- Do not dispose of the product in regular household waste if it is contaminated with solvents or oils.

- Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For further assistance or inquiries about the SINCLAIR Chamber Plug, please refer to the product packaging or documentation provided at the point of purchase. Always ensure you have the latest information regarding safety and product recalls.

Thank you for your attention to these safety guidelines. Your safety and the safe operation of your firearm are of utmost importance.
