

# SINCLAIR CHAMBER PLUG - SINCLAIR INTERNATIONAL WSM FAMILY CHAMBER PLUG

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Guides](#)

This unique product seals the chamber and bore to prevent solvents and oils from running back into the action when the rifle is left in an upright position. For heavily fouled barrels, we use these plugs to seal the chamber and then fill the barrel with our favorite solvent. Then we let the barrel sit for a while. If left overnight, you should seal the muzzle end with tape to prevent evaporation. Make sure you fill the barrel all the way to the muzzle end. If storing guns for a long time, these plugs can keep rust preventative agents and oils from seeping down into the action and trigger group area. Oil and debris washed in with excess solvent harms more triggers than just about anything. Replacement O-rings come in packs of 5.

# Safety Instruction Guide for SINCLAIR CHAMBER PLUG

## Introduction

Thank you for choosing the SINCLAIR CHAMBER PLUG. This product is designed to seal the chamber and bore of your firearm, preventing solvents and oils from entering the action when stored in an upright position. Please read this safety instruction guide carefully to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR).

## General Safety Guidelines

- Always handle firearms with care and ensure they are unloaded before using the chamber plug.
- Keep the chamber plug out of reach of children and vulnerable individuals.
- Regularly inspect the chamber plug for any signs of wear or damage before use.
- Use the product only for its intended purpose as specified in this guide.
- Report any unsafe products or accidents to the relevant authorities.
- Stay updated on recall notices through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure the rifle is in a stable position before inserting the chamber plug.
- Avoid using the chamber plug with heavily fouled barrels without proper cleaning first.
- Do not leave the barrel filled with solvent for longer than recommended to prevent damage.
- Seal the muzzle end with tape if the barrel is filled overnight to prevent solvent evaporation.
- Do not use the chamber plug if it shows signs of deterioration or if the Orings are damaged.
- Always follow the manufacturer's recommendations regarding solvent usage.

## Instructions for Installation and Usage

### 1. Preparation:

- Ensure the firearm is unloaded and in a safe position.
- Clean the barrel if it is heavily fouled.

### 2. Inserting the Chamber Plug:

- Insert the chamber plug into the chamber of the firearm.
- Ensure a snug fit to create a proper seal.

### 3. Filling the Barrel:

- Fill the barrel with your preferred solvent, ensuring it reaches the muzzle end.
- Do not exceed the recommended fill level.

### 4. Sealing the Muzzle:

- If leaving the barrel filled overnight, use tape to seal the muzzle end to prevent evaporation.

### 5. Storing the Firearm:

- Store the firearm in an upright position to maintain the seal created by the chamber plug.
- If storing for an extended period, ensure the chamber plug is securely in place.

## **6. Replacing Orings:**

- Orings can be replaced when they show signs of wear.
- Replacement Orings are available in packs of 5.

## **Disposal Instructions**

- Dispose of the chamber plug and any used Orings responsibly.
- Do not dispose of the product in household waste.
- Follow local regulations for the disposal of nonfood products.

## **Contact Information for Further Support**

For any safety inquiries or concerns regarding the SINCLAIR CHAMBER PLUG, please refer to the manufacturer's contact details provided with the product packaging.

By following these safety instructions, you can ensure the effective and safe use of the SINCLAIR CHAMBER PLUG. Thank you for your attention to safety and compliance with the EU General Product Safety Regulation.
