

# SINCLAIR CHAMBER PLUG - SINCLAIR INTERNATIONAL 22-250 REMINGTON CHAMBER PLUG

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Guides](#)

This unique product seals the chamber and bore to prevent solvents and oils from running back into the action when the rifle is left in an upright position. For heavily fouled barrels, we use these plugs to seal the chamber and then fill the barrel with our favorite solvent. Then we let the barrel sit for a while. If left overnight, you should seal the muzzle end with tape to prevent evaporation. Make sure you fill the barrel all the way to the muzzle end. If storing guns for a long time, these plugs can keep rust preventative agents and oils from seeping down into the action and trigger group area. Oil and debris washed in with excess solvent harms more triggers than just about anything. Replacement O-rings come in packs of 5.

# Safety Instruction Guide for Sinclair Chamber Plug

## Introduction

Thank you for purchasing the Sinclair Chamber Plug. This product is designed to enhance the maintenance of your rifle by sealing the chamber and bore. It prevents solvents and oils from running back into the action when the rifle is stored upright. This guide provides essential safety instructions to ensure safe and effective use of the product.

## General Safety Guidelines

- Ensure the product is used only as intended.
- Always read and follow the instructions provided with the product.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check for wear and tear, and replace any damaged components.
- Report any unsafe products or incidents to the appropriate authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use the chamber plug only with firearms that are compatible with the 22250 Remington and 250 Savage cartridges.
- Always ensure that the firearm is unloaded before inserting the chamber plug.
- Avoid using the chamber plug with solvents or oils that are not recommended by the manufacturer.
- When using solvents, ensure proper ventilation in the area to avoid inhalation of fumes.
- Seal the muzzle end with tape if the barrel is filled with solvent overnight to prevent evaporation.
- Do not leave the chamber plug in the firearm for extended periods without checking for any adverse effects.

## Instructions for Installation and Usage

### 1. Preparation

- Ensure the firearm is completely unloaded and pointed in a safe direction.
- Gather all necessary materials, including the Sinclair Chamber Plug and any recommended solvents.

### 2. Installation of Chamber Plug

- Identify the chamber of your firearm.
- Insert the Sinclair Chamber Plug into the chamber, ensuring it fits snugly.
- Ensure the plug is seated properly to create an effective seal.

### 3. Using Solvents

- After sealing the chamber with the plug, fill the barrel with your preferred solvent.
- Make sure to fill the barrel completely to the muzzle end.
- If storing overnight, seal the muzzle end with tape to prevent solvent evaporation.

### 4. PostUsage Care

- After the desired soaking time, remove the chamber plug and clean the barrel as per the

manufacturer's instructions.

- Inspect the chamber plug for any signs of damage or wear before each use.
- Replace Orings if necessary; they come in packs of 5 for your convenience.

## **Disposal Instructions**

- Dispose of the chamber plug and any used Orings in accordance with local regulations.
- Do not dispose of solvents or oils down the drain. Follow local hazardous waste disposal guidelines.
- Ensure that all packaging materials are disposed of responsibly.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the Sinclair Chamber Plug, please refer to the manufacturer's contact information provided with the product packaging.
