

SINCLAIR CHAMBER PLUG - SINCLAIR INTERNATIONAL 223 REMINGTON CHAMBER PLUG

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Guides](#)

This unique product seals the chamber and bore to prevent solvents and oils from running back into the action when the rifle is left in an upright position. For heavily fouled barrels, we use these plugs to seal the chamber and then fill the barrel with our favorite solvent. Then we let the barrel sit for a while. If left overnight, you should seal the muzzle end with tape to prevent evaporation. Make sure you fill the barrel all the way to the muzzle end. If storing guns for a long time, these plugs can keep rust preventative agents and oils from seeping down into the action and trigger group area. Oil and debris washed in with excess solvent harms more triggers than just about anything. Replacement O-rings come in packs of 5.

SINCLAIR CHAMBER PLUG Safety Instruction Guide

Introduction

Thank you for choosing the SINCLAIR CHAMBER PLUG for your 223 Remington firearm. This product is designed to enhance the safety and maintenance of your rifle by preventing solvents and oils from contaminating the action when stored in an upright position. This guide provides essential safety instructions to ensure the safe use of this product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always read and understand all instructions before using the SINCLAIR CHAMBER PLUG.
- Ensure that the product is used only for its intended purpose.
- Keep all products out of reach of children and vulnerable individuals.
- Regularly check for any signs of damage or wear on the product before use.
- If you notice any defects or issues, discontinue use immediately and seek assistance.
- Report any unsafe products or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Ensure that the firearm is unloaded before inserting the chamber plug.
- Do not leave the chamber plug in place for extended periods without checking the condition of the barrel and chamber.
- Use only approved solvents and oils when cleaning your firearm.
- Avoid using excessive amounts of solvent, as it may lead to overflow and potential hazards.
- Seal the muzzle end with tape if the barrel is filled with solvent, especially if left overnight.
- Always store the firearm in a secure location when not in use.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is completely unloaded.
- Gather necessary cleaning supplies and the SINCLAIR CHAMBER PLUG.

2. Installation:

- Carefully insert the chamber plug into the chamber of the firearm.
- Ensure a snug fit to prevent any leakage of solvents or oils.

3. Filling the Barrel:

- If cleaning a heavily fouled barrel, fill the barrel with your preferred solvent after sealing the chamber.
- Ensure the solvent reaches the muzzle end of the barrel.

4. Sealing the Muzzle:

- Use tape to seal the muzzle end if the barrel is filled with solvent, particularly if it will be left overnight.
- Check that the tape is secure to prevent evaporation.

5. Storage:

- If storing the firearm for an extended period, ensure that the chamber plug remains in place to prevent rust and contamination.
- Regularly check the condition of the firearm and the chamber plug during storage.

6. Removal:

- When ready to use the firearm, carefully remove the chamber plug.
- Inspect the chamber and barrel for any residual solvent or debris before loading.

Disposal Instructions

- Dispose of the SINCLAIR CHAMBER PLUG responsibly in accordance with local regulations.
- Do not dispose of the product in regular household waste.
- Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any inquiries regarding the SINCLAIR CHAMBER PLUG or safety concerns, please contact the manufacturer or refer to the product packaging for additional information.

Thank you for following these safety instructions. Your compliance ensures a safer experience while using the SINCLAIR CHAMBER PLUG and contributes to overall firearm safety.
