

SINCLAIR CHAMBER PLUG - SINCLAIR INTERNATIONAL 30-06 FAMILY CHAMBER PLUG

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Guides](#)

This unique product seals the chamber and bore to prevent solvents and oils from running back into the action when the rifle is left in an upright position. For heavily fouled barrels, we use these plugs to seal the chamber and then fill the barrel with our favorite solvent. Then we let the barrel sit for a while. If left overnight, you should seal the muzzle end with tape to prevent evaporation. Make sure you fill the barrel all the way to the muzzle end. If storing guns for a long time, these plugs can keep rust preventative agents and oils from seeping down into the action and trigger group area. Oil and debris washed in with excess solvent harms more triggers than just about anything. Replacement O-rings come in packs of 5.

Attributes

- Name: [SINCLAIR INTERNATIONAL 30-06 FAMILY CHAMBER PLUG](#)
- Manufacturer: [SINCLAIR INTERNATIONAL](#)
- Product no.: 749001594
- Mfr. No.:
- Cartridge: 30-06 Improved 40
- Delivery weight: 0.045kg
- Shipping height: 10mm
- Shipping width: 13mm
- Shipping length: 58mm

SINCLAIR CHAMBER PLUG SAFETY INSTRUCTIONS

Introduction

Thank you for choosing the Sinclair Chamber Plug. This product is designed to help maintain your firearm by sealing the chamber and bore, preventing solvents and oils from running back into the action when the rifle is stored upright. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

General Safety Guidelines

- Ensure that the Sinclair Chamber Plug is used only with compatible firearms.
- Always follow local laws and regulations regarding firearm storage and maintenance.
- Store the product out of reach of children and vulnerable individuals.
- Inspect the product regularly for wear and damage. Replace Orings as needed.
- Report any unsafe product experiences to local authorities or the appropriate consumer safety organization.

Specific Safety Precautions for Use

- Use the chamber plug only when the firearm is unloaded and in a safe condition.
- Avoid using the chamber plug with heavily fouled barrels without prior cleaning.
- When filling the barrel with solvent, ensure that the muzzle end is sealed to prevent evaporation.
- Do not leave the barrel filled with solvent for extended periods without monitoring.
- If storing firearms for long durations, ensure that the chamber plug is properly installed to prevent rust and oil seepage.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is unloaded and pointed in a safe direction.
- Clean the barrel if necessary to remove excessive fouling.

2. Installation:

- Insert the Sinclair Chamber Plug into the chamber of the firearm.
- Ensure it fits snugly and seals the chamber effectively.

3. Filling the Barrel:

- Fill the barrel with your preferred solvent, ensuring that it reaches the muzzle end.
- Seal the muzzle end with tape to prevent evaporation of the solvent.

4. Storage:

- Store the firearm in an upright position with the chamber plug installed.
- Monitor the firearm periodically to check for any signs of rust or damage.

5. Removal:

- When ready to use the firearm, carefully remove the chamber plug.
- Dispose of any solvents used according to local regulations.

Disposal Instructions

- Dispose of the Sinclair Chamber Plug responsibly. Follow local regulations for the disposal of nonhazardous materials.
- If the product is damaged or worn, do not attempt to reuse it. Dispose of it in accordance with local waste management guidelines.

Contact Information for Further Support

For any inquiries regarding the Sinclair Chamber Plug or safety concerns, please consult the retailer where you purchased the product or visit the manufacturer's website for further assistance.

Thank you for prioritizing safety while using the Sinclair Chamber Plug. Your attention to these guidelines helps ensure a safe and effective experience with your firearm maintenance.
