

SINCLAIR SERVICE RIFLE PORT - SINCLAIR INTERNATIONAL SERVICE RIFLE CLEANING ACTION PORT, 243/308/30-06 CHAMBERS

[Gun Cleaning & Chemicals](#) > [Cleaning Rods & Accessories](#) > [Cleaning Rod Guides](#)

This cleaning aid is designed for service rifles chambered in 243 Win, 308 Win, and 30-06 (M1, M1A, and M-14's). This receiver port inserts into your action and plugs the chamber just like a rod guide. Solvents are prevented from running down into the trigger group and into the bedding. It can also be used as an access port to apply more solvent prior to pulling your brush back through the bore. This receiver port also keeps the bolt in the open position and prevents you from ramming your brush or jag into the bolt face.

Sinclair Service Rifle Port Safety Instruction Guide

Introduction

Thank you for choosing the Sinclair Service Rifle Port. This cleaning aid is specifically designed for service rifles chambered in .243 Win, .308 Win, and .3006 (M1, M1A, and M14). It provides an efficient way to clean your firearm while ensuring safety during the process. This guide outlines important safety instructions and usage information to help you use the product effectively and safely.

General Safety Guidelines

- Always follow the manufacturer's instructions for safe handling and usage of the Sinclair Service Rifle Port.
- Ensure the firearm is unloaded before installation and usage of the cleaning aid.
- Keep the cleaning area wellventilated to avoid inhaling harmful fumes from solvents.
- Store solvents and cleaning agents out of reach of children and pets.
- Regularly check for wear and tear on the cleaning aid to ensure it remains effective and safe to use.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Do not use the Sinclair Service Rifle Port on firearms that are not specified in the product description.
- Ensure that the receiver port is securely inserted into the action before applying any solvents.
- Avoid using excessive force when inserting or removing the cleaning aid to prevent damage to the firearm.
- Do not allow solvents to come into contact with the trigger group or bedding.
- Always keep the bolt in the open position while using the cleaning aid to prevent accidental discharge.

Instructions for Installation and Usage

1. Preparation:

- Ensure the firearm is completely unloaded.
- Gather all necessary cleaning supplies, including the Sinclair Service Rifle Port, cleaning solvents, brushes, and rags.

2. Installation:

- Insert the Sinclair Service Rifle Port into the action of the firearm.
- Ensure it fits snugly and securely to prevent any solvents from leaking into unwanted areas.

3. Usage:

- Apply solvent to the cleaning brush or directly into the bore through the access port.
- Pull the brush back through the bore to clean, ensuring that the cleaning aid remains in place.
- After cleaning, remove the cleaning aid carefully and clean it as necessary.

4. PostCleaning:

- Inspect the firearm to ensure that it is clean and free of solvents before storing or using it again.
- Store the Sinclair Service Rifle Port in a safe, dry place away from children and pets.

Disposal Instructions

- Dispose of used solvents and cleaning materials according to local regulations.
- Do not dispose of cleaning agents in household waste; check with local authorities for proper disposal methods.
- If the Sinclair Service Rifle Port is damaged beyond use, dispose of it in accordance with local waste disposal guidelines.

Contact Information for Further Support

For any questions or concerns regarding the Sinclair Service Rifle Port, please refer to the contact information provided by the manufacturer or retailer from whom the product was purchased.

By following these safety instructions, you can ensure a safe and effective cleaning experience with your Sinclair Service Rifle Port. Thank you for your attention to these important guidelines.
