

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.228

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.228](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001900
- Mfr. No.: 73228
- Diameter (in): .228
- Delivery weight: 0.032kg
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732287

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.228

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.228. This guide provides essential safety information and instructions for the proper use and maintenance of this product. Please read this guide carefully to ensure safe and effective use.

General Safety Guidelines

- Always ensure that the bushings are used in accordance with the manufacturer's specifications.
- Inspect the bushings for any signs of damage or wear before each use.
- Keep the bushings out of reach of children and vulnerable individuals to prevent accidental injury.
- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling or using the bushings.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Ensure that the bushing is properly sized for your application to avoid excessive force during use.
- Do not exceed the recommended sizing diameters of .185" thru .368" in .001" increments.
- Avoid using damaged or worn bushings, as they may lead to inaccurate sizing or injury.
- Do not modify the bushings in any way, as this may compromise their integrity and safety.
- Follow all manufacturer guidelines for the use and maintenance of the bushings.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and equipment before starting.
- Ensure that your workspace is clean and free from clutter.

2. Installation:

- Select the appropriate bushing size based on your needs. The last three digits of the part number (#RD73XXX) indicate the bushing size.
- Insert the bushing into the appropriate tool or equipment, ensuring a secure fit.
- Verify that the bushing is seated correctly and does not wobble or shift.

3. Usage:

- Apply even pressure when using the bushing to avoid injury and ensure accurate sizing.
- Monitor the bushing during use for any signs of overheating or wear.
- If you notice any abnormalities, cease use immediately and inspect the bushing.

4. PostUsage:

- Clean the bushing with a soft cloth to remove any debris or residue.
- Inspect the bushing for damage or wear after each use.
- Store the bushings in a dry, safe location away from direct sunlight and moisture.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste if they are considered hazardous.
- Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.228, please refer to the manufacturer's customer service resources.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities.
