

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.229

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.229](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001901
- Mfr. No.: 73229
- Diameter (in): .229
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732294

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.229

Introduction

Thank you for purchasing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.229. This guide provides important safety information and instructions to ensure the safe use of the product. Please read this document carefully before using the bushings.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the bushings for any visible damage before use. Do not use damaged products.
- Keep the bushings out of reach of children and vulnerable individuals to prevent accidental injury.
- Use appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the bushings.
- If you experience any discomfort or adverse effects while using the product, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- The bushings are made from heattreated steel and have a surface hardness of Rc 6062. Handle with care to avoid injury from sharp edges.
- Ensure that the sizing diameters are compatible with your equipment before use. Refer to the part number (#RD73XXX) for specific sizing.
- Do not exceed the recommended sizing range of .185" through .368" as improper use may lead to equipment malfunction or personal injury.
- Use the bushings in a wellventilated area to avoid inhalation of any dust or particles generated during use.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and equipment before starting the installation process.
- Ensure that your workspace is clean, organized, and free from hazards.

2. Installation:

- Select the appropriate bushing size based on the part number (#RD73XXX).
- Carefully insert the bushing into the designated area of your equipment, ensuring a snug fit.
- Secure the bushing according to the manufacturer's specifications to prevent movement during operation.

3. Usage:

- Follow the manufacturer's guidelines for operating your equipment with the installed bushings.
- Monitor the performance of the bushings during use and check for any signs of wear or damage.
- If you notice any irregularities, stop using the equipment immediately and inspect the bushings.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local waste disposal regulations.
- Do not dispose of bushings in regular household waste. Instead, consider recycling options for metal materials where available.

Contact Information for Further Support

For any questions or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.229, please refer to the contact information provided by the manufacturer or retailer from whom you purchased the product. It is important to have this information on hand for any safety inquiries or product support.

Conclusion

By following these safety instructions, you can ensure the safe and effective use of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.229. Always prioritize safety and do not hesitate to seek assistance if needed. Thank you for your attention to these important guidelines.
