

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.366

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.366](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001932
- Mfr. No.: 73366
- Diameter (in): .366
- Delivery weight: 0.009kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733666

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.366

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.366. This guide provides essential safety instructions to ensure the safe use and handling of this product. Please read this guide carefully before using the bushings.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the bushings for any damage or defects before use.
- Store the bushings in a dry and safe place, away from children and pets.
- Follow all local regulations regarding the use of steel bushings.
- Report any unsafe products or incidents to the relevant authorities.

## Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the bushings.
- Avoid using the bushings with excessive force, which may lead to damage or injury.
- Ensure that the bushings are compatible with your reloading equipment before use.
- Do not exceed the specified sizing diameters while using the bushings.
- Keep the work area clean and free of clutter to prevent accidents.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools and materials for installation.
- Ensure that your reloading equipment is clean and in good working condition.

### 2. Installation

- Identify the correct bushing size based on the last three digits of the part number (#RD73XXX).
- Carefully insert the bushing into the appropriate reloading die.
- Ensure that the bushing is seated properly and securely in the die.

### 3. Usage

- Follow the manufacturer's instructions for your reloading equipment.
- Adjust the sizing die to the desired setting, ensuring that the bushing size is appropriate for the task.
- Perform a test sizing with a sample case to verify that the bushing is functioning correctly.
- Monitor the sizing process and adjust as necessary to maintain consistency and safety.

## Disposal Instructions

- Dispose of any damaged or unusable bushings in accordance with local regulations.
- Recycle materials whenever possible to minimize environmental impact.

- Do not dispose of bushings in regular household waste if they are still usable; consider donating them to local reloading clubs or enthusiasts.

## **Contact Information for Further Support**

For any questions or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.366, please refer to the manufacturer's website or contact their customer support for assistance.

By following these safety instructions, you help ensure a safe and effective experience with your STEEL NECK BUSHINGS. Thank you for your attention to safety and quality.
