

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.367

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.367](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001933
- Mfr. No.: 73367
- Diameter (in): .367
- Delivery weight: 0.009kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733673

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.367

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.367. This guide provides important safety information, usage instructions, and disposal guidelines to ensure your safety and the effective use of this product. Please read this guide carefully before using the bushings.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the bushings for any signs of damage before use.
- Keep the bushings out of reach of children and vulnerable individuals.
- Follow all instructions for installation and usage to prevent accidents and injuries.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about recall updates via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as gloves and safety goggles when handling the bushings.
- Avoid using the bushings if they show signs of wear, damage, or deformation.
- Ensure that the work area is clean and free from any obstructions that may cause accidents.
- Do not exceed the recommended sizing diameters and increments when using the bushings.
- Handle the bushings with care to avoid dropping or subjecting them to excessive force.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and equipment before starting.
- Ensure that the work area is welllit and organized.

2. Installation:

- Select the appropriate bushing size according to your needs. The bushing size is indicated by the last three digits of the part number (#RD73XXX).
- Carefully insert the bushing into the appropriate resizing die, ensuring a snug fit.
- Make sure the bushing is properly aligned with the die to avoid misalignment during use.

3. Usage:

- Follow the manufacturer's guidelines for resizing operations.
- Apply even pressure when using the resizing die to ensure consistent results.
- Monitor the bushing and resizing die for any signs of wear or damage during use.

4. PostUsage:

- After use, clean the bushings and store them in a dry, safe place.
- Regularly inspect the bushings for any signs of wear or damage before future use.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste if they are made of materials that require special handling.
- Contact your local waste management authority for guidance on proper disposal methods.

Contact Information for Further Support

For any safety inquiries or additional support regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.367, please refer to the manufacturer's contact information provided on the product packaging or user manual.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities.
