

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.200

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.200](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001935
- Mfr. No.: 73200
- Diameter (in): .200
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732003

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.200

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.200. This guide provides essential safety instructions to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR). Please read this document carefully before using the product.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in the product description.
- Always inspect the bushings for any visible damage before use. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the appropriate authorities.
- Regularly check the EU's Safety Gate platform for recall updates related to this product.

Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling the bushings.
- Ensure that the working area is clean and free of hazards to prevent accidents.
- Do not exceed the recommended sizing diameters when using the bushings.
- Avoid using excessive force during the sizing process to prevent injury or damage to the product.
- If you experience any issues during use, stop immediately and consult the instructions or seek assistance.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting the installation.
- Ensure that your work area is welllit and organized.

2. Installation Steps:

- Select the appropriate bushing size based on your requirements (sizes range from .185" to .368").
- Clean the area where the bushing will be installed to ensure a proper fit.
- Carefully insert the bushing into the designated area, ensuring it is aligned correctly.
- Secure the bushing in place according to the specific equipment or machinery guidelines.

3. Usage Steps:

- Begin the sizing process by applying steady and even pressure.
- Monitor the sizing effort; if excessive force is required, stop and reassess the bushing fit.
- Follow any additional equipmentspecific instructions for optimal performance.

Disposal Instructions

- Dispose of the product in accordance with local regulations regarding metal and industrial waste.
- Do not dispose of the product in regular household waste.

- If unsure about disposal methods, contact your local waste management facility for guidance.

Contact Information for Further Support

For any inquiries or further assistance regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.200, please contact the manufacturer or your point of purchase.

Thank you for your attention to these safety instructions. Your safety and satisfaction are our top priorities.
