

STEEL NECK BUSHINGS - REDDING 0.226" STEEL NECK BUSHING

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 0.226" STEEL NECK BUSHING](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001939
- Mfr. No.: 73226
- Diameter (in): .226
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732263

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 0.226" STEEL NECK BUSHING

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 0.226" STEEL NECK BUSHING. This guide provides essential safety information to ensure safe usage and handling of the product. Please read this guide carefully before using the product.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Inspect the bushings for any signs of damage or wear before each use.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe product conditions or accidents to the relevant authorities.
- Check for recall updates regularly on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as gloves and safety glasses when handling the bushings.
- Use the bushings only for their intended purpose as specified by the manufacturer.
- Avoid using the bushings if they show signs of damage, such as cracks or deformation.
- Do not exceed the recommended sizing diameters during usage to avoid potential injuries or equipment damage.
- Ensure that the working area is clean and free from hazards that could cause slips or falls.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting the installation.
- Ensure that the work area is welllit and organized.

2. Installation:

- Align the bushing with the corresponding equipment as per the manufacturer's specifications.
- Secure the bushing in place using the appropriate fastening method.
- Doublecheck the alignment and secure all connections before proceeding.

3. Usage:

- Follow the manufacturer's guidelines for sizing to ensure proper function.
- Monitor the bushing during operation for any unusual sounds or vibrations.
- If any issues arise during usage, stop immediately and inspect the bushing for damage.

Disposal Instructions

- Dispose of the STEEL NECK BUSHINGS in accordance with local regulations for metal and industrial waste.
- Do not throw the bushings in regular household waste.
- Contact your local waste management facility for guidance on proper disposal methods.

Contact Information for Further Support

For any inquiries related to safety or product usage, please contact the manufacturer or authorized distributor. Ensure to have the product model and part number ready for reference.

By following these guidelines, you can ensure a safe and effective experience with your STEEL NECK BUSHINGS REDDING 0.226" STEEL NECK BUSHING. Thank you for your attention to safety.
