

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.233

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.233](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001941
- Mfr. No.: 73233
- Diameter (in): .233
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732331

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.233

Introduction

Thank you for purchasing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.233. This product is designed to provide precision and durability in resizing applications. It is essential to follow safety guidelines to ensure safe and effective use. This guide provides important safety instructions, precautions, and contact information for support.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the bushings before use for any signs of damage or wear.
- Keep the bushings out of reach of children and vulnerable individuals.
- Follow all instructions for installation and usage carefully.
- Be aware of your surroundings and maintain a clean workspace to avoid accidents.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Handling:** Always handle the bushings with care. Avoid dropping or mishandling, as this may cause damage.
- **Personal Protective Equipment (PPE):** Wear appropriate PPE such as safety glasses and gloves when working with the bushings to protect against any debris or sharp edges.
- **Sizing Effort:** The bushings are designed with a surface hardness of Rc 6062. Ensure that you apply even pressure when resizing to avoid excessive force, which may damage the bushings or the equipment used.
- **Compatibility:** Ensure that the bushings are compatible with your resizing equipment to prevent malfunction or accidents.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and equipment before beginning.
- Ensure your workspace is clean and organized.

2. Installation:

- Select the appropriate bushing size based on your resizing needs. The last three digits of the part number (#RD73XXX) indicate the bushing size.
- Carefully insert the bushing into the resizing die, ensuring a secure fit.
- Tighten any screws or fasteners as required by your equipment manual.

3. Usage:

- Begin the resizing process by applying consistent and even pressure.
- Monitor the resizing process closely to ensure that the bushing is functioning correctly.
- If you notice any irregularities or difficulties, stop immediately and inspect the bushing and equipment.

4. PostUse:

- After use, clean the bushings to remove any debris or residue.
- Store the bushings in a safe and dry location, away from moisture and extreme temperatures.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste. Check with local waste management for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or further support regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.233, please refer to the product packaging or documentation for contact information.

By adhering to these safety guidelines and instructions, you can ensure a safe and effective experience with your STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.233. Thank you for your attention to safety.
