

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.253

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.253](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001947
- Mfr. No.: 73253
- Diameter (in): .253
- Delivery weight: 0.032kg
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732539

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.253

Introduction

Thank you for purchasing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.253. This guide provides essential safety instructions to ensure the safe use of this product. Please read this document carefully before use to familiarize yourself with safety guidelines, precautions, and proper usage instructions.

General Safety Guidelines

- Ensure the bushings are used only for their intended purpose.
- Always inspect the bushings before use for any signs of damage or wear.
- Store the bushings in a dry, cool place away from direct sunlight and moisture.
- Keep bushings out of reach of children and pets to avoid accidental injury.
- Do not attempt to modify or alter the bushings in any way.
- If you encounter any issues while using the bushings, cease use immediately and consult a professional.

Specific Safety Precautions for Use

- **Hazard Identification:**

- The bushings are made of heattreated steel and may have sharp edges. Handle with care to avoid cuts or injuries.
- Improper sizing may lead to equipment malfunction or accidents. Ensure correct sizing is used as indicated by the part number.

- **Avoiding Hazards:**

- Always wear appropriate personal protective equipment (PPE) such as gloves and safety glasses when handling the bushings.
- Use the bushings only with compatible equipment to prevent accidents and injuries.
- Do not exceed the recommended sizing limits to maintain safety and functionality.

Instructions for Installation and Usage

- **Installation:**

1. Ensure that the workspace is clean and welllit.
2. Select the appropriate bushing size based on the last three digits of the part number (#RD73XXX).
3. Carefully insert the bushing into the designated area of the equipment.
4. Ensure that the bushing is seated properly and securely before use.

- **Usage:**

- Follow the manufacturer's instructions for the equipment being used with the bushings.
- Monitor the performance during use and stop immediately if any unusual sounds or behaviors are detected.
- Regularly check the bushings for wear and replace them as necessary to maintain optimal safety.

Disposal Instructions

- Dispose of the bushings in accordance with local regulations and guidelines.
- Do not dispose of bushings in regular household waste.
- If the bushings are damaged or no longer usable, consider recycling them if possible.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.253, please reach out to your local retailer or the manufacturer. Ensure you have your product details ready for a quicker response.

By following these guidelines, you can ensure the safe and effective use of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.253. Thank you for prioritizing safety!
