

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.255

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.255](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001949
- Mfr. No.: 73255
- Diameter (in): .255
- Delivery weight: 0.032kg
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732553

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.255

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.255. This guide provides important safety information to ensure the safe use of the product. Please read this document carefully before using the bushings to minimize risks and ensure proper handling.

General Safety Guidelines

- Always follow the manufacturer's instructions for use.
- Ensure that the bushings are used in accordance with their intended purpose.
- Keep the bushings out of reach of children to prevent accidental injury.
- Regularly inspect the bushings for signs of wear or damage before each use.
- Do not use the bushings if they show any signs of damage or if they do not fit properly.
- Report any unsafe conditions or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE) such as safety goggles and gloves when handling the bushings.
- Ensure that the working area is clean, dry, and welllit to prevent accidents.
- Avoid using excessive force when inserting or removing the bushings to prevent injury or damage.
- Do not modify the bushings in any way, as this may compromise safety and performance.
- Store the bushings in a secure location when not in use to prevent unauthorized access.

Instructions for Installation and Usage

1. Preparation:

- Ensure that all necessary tools and equipment are available before starting the installation.
- Clean the area where the bushing will be installed to remove any debris.

2. Installation:

- Select the appropriate bushing size based on the last three digits of the part number (#RD73XXX).
- Align the bushing with the intended installation area.
- Gently insert the bushing, ensuring it fits snugly without excessive force.

3. Usage:

- Use the bushings in accordance with the intended application, ensuring they are compatible with your equipment.
- Monitor the bushings during use for any signs of wear or malfunction.
- If you notice any issues, cease use immediately and inspect the bushings for damage.

4. Postusage:

- Clean the bushings after use to maintain their condition.
- Store the bushings in a safe, dry place away from direct sunlight and moisture.

Disposal Instructions

- Dispose of the bushings in accordance with local regulations.
- Do not dispose of the bushings in general waste if they are damaged or contain hazardous materials.
- Consider recycling options if available in your area.

Contact Information for Further Support

For any questions or concerns regarding the safety and usage of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.255, please refer to the manufacturer's contact details provided with the product packaging or on the official website.

Thank you for prioritizing safety while using the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.255. Your attention to these guidelines helps ensure a safe and effective experience.
