

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.256

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.256](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001950
- Mfr. No.: 73256
- Diameter (in): .256
- Delivery weight: 0.032kg
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732560

# STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.256 Safety Instruction Guide

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.256. This guide provides essential safety instructions and information to ensure the safe and effective use of this product. Please read this guide carefully before using the bushings.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the bushings for any signs of damage or wear before use.
- Keep the bushings out of reach of children and vulnerable individuals.
- If you notice any irregularities during use, stop immediately and inspect the product.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls and safety updates via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Hazard Identification:**
  - Risk of injury if bushings are damaged or improperly installed.
  - Potential for reduced performance if not used with compatible equipment.
- **Avoiding Hazards:**
  - Always use the correct bushing size for your application.
  - Do not exceed the recommended sizing diameters.
  - Avoid using excessive force when sizing to prevent strain or injury.
- **Age or Audience Specific Warnings:**
  - This product is not suitable for children. Keep out of reach of minors.

## Instructions for Installation and Usage

- **Installation:**
  1. Choose the appropriate bushing size based on your requirements.
  2. Ensure that the bushing is clean and free from debris before installation.
  3. Insert the bushing into the sizing die securely.
  4. Confirm that the bushing is properly aligned.
- **Usage:**
  1. Begin sizing with a gentle force to ensure proper fit.
  2. Gradually increase pressure as needed, but do not exceed the recommended sizing effort.
  3. After use, carefully remove the bushing from the die.
  4. Clean the bushing after each use to maintain its condition.

## Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the bushings in general waste if they are damaged or contaminated.
- Check with local authorities for specific disposal guidelines related to steel products.

## Contact Information for Further Support

For safety inquiries or additional support regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.256, please refer to the contact information provided by the manufacturer. Ensure that you have the product details ready for a more efficient response.

Thank you for your attention to these safety instructions. Proper handling and usage of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.256 will ensure a safe and effective experience.
