

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.295

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.295](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001957
- Mfr. No.: 73295
- Diameter (in): .295
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732959

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.295

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.295. This guide provides important safety instructions and guidelines to ensure the safe use of this product. Please read this document carefully before using the bushings to avoid any potential hazards.

## General Safety Guidelines

- Ensure that the product is used for its intended purpose only.
- Always inspect the bushings before use for any signs of damage or wear.
- Keep the bushings out of reach of children and vulnerable individuals.
- Use appropriate personal protective equipment (PPE) such as gloves and safety glasses when handling the bushings.
- Report any unsafe products or incidents to the relevant authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

## Specific Safety Precautions for Use

### • Potential Hazards:

- Sharp edges may be present on the bushings. Handle with care to avoid cuts.
- Improper installation can lead to equipment malfunction or injury.

### • Avoiding Hazards:

- Always ensure that the bushings are properly sized and compatible with your equipment.
- Do not exceed the recommended sizing diameters.
- Follow the manufacturer's instructions for installation and usage.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and equipment before beginning installation.
- Ensure the work area is clean and free from distractions.

### 2. Installation:

- Select the appropriate bushing size based on your requirements (e.g., .295").
- Carefully insert the bushing into the designated area of your equipment.
- Ensure a secure fit; the bushing should not be loose.

### 3. Usage:

- Use the bushings as specified in your equipment's manual.
- Monitor the bushings during use for any signs of wear or malfunction.
- If any issues arise, cease use immediately and inspect the bushings.

## **Disposal Instructions**

- Dispose of the bushings in accordance with local regulations.
- Do not dispose of in regular household waste if local laws prohibit it.
- Consider recycling options if available.

## **Contact Information for Further Support**

For any inquiries or further assistance regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.295, please refer to the manufacturer's contact information or your local distributor.

Thank you for your attention to these safety instructions. Your safety is our priority.
