

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.301

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.301](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001963
- Mfr. No.: 73301
- Diameter (in): .301
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733017

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.301

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.301. This guide provides essential safety instructions to ensure the safe use of this product. Please read this guide carefully before using the bushings to understand how to use them correctly and safely.

General Safety Guidelines

- Always use the bushings for their intended purpose as described in this guide.
- Inspect the bushings for any signs of damage or wear before each use.
- Keep the bushings out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as gloves and safety glasses when handling the bushings.
- Follow all local regulations and guidelines related to product safety and usage.

Specific Safety Precautions for Use

- Ensure that the bushing is compatible with your reloading equipment.
- Do not exceed the specified sizing diameters to avoid damaging the bushing or your equipment.
- Avoid using the bushings if they are cracked, deformed, or otherwise damaged.
- Store the bushings in a dry, clean place to prevent rust and degradation.
- Always handle the bushings with care to avoid injury from sharp edges.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting.
- Ensure your workspace is clean and free from clutter.

2. Installation:

- Select the appropriate bushing size based on your reloading needs. The size is indicated by the last three digits of the part number (#RD73XXX).
- Carefully insert the bushing into the reloading die according to the manufacturer's instructions.
- Ensure that the bushing is seated properly to avoid misalignment during use.

3. Usage:

- Follow the reloading equipment instructions for proper operation.
- Apply even pressure when resizing cases to minimize effort and prevent damage.
- Monitor the bushing during use for any signs of wear or damage.

4. PostUse:

- Clean the bushings after use to remove any debris or residue.
- Inspect the bushings regularly for wear and replace them as necessary.

Disposal Instructions

- Dispose of the bushings in accordance with local waste management regulations.
- Do not dispose of the bushings in regular household waste if they are damaged or contain hazardous materials.
- Consider recycling options for metal components if applicable.

Contact Information for Further Support

For any safety inquiries or further support regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.301, please reach out to the manufacturer or authorized retailer. Ensure you have the product details ready for assistance.

By following these safety instructions, you can ensure the safe and effective use of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.301. Thank you for prioritizing safety in your reloading activities.
