

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.302

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.302](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001964
- Mfr. No.: 73302
- Diameter (in): .302
- Delivery weight: 0.032kg
- Shipping height: 8mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733024

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.302

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.302. This product is designed to provide reliable performance in various applications. To ensure your safety and the safety of others, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always use the product according to the manufacturer's instructions.
- Inspect the product for any damage or wear before use. Do not use if damaged.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about product recalls by checking the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the sizing diameters are appropriate for your application to avoid excessive sizing effort.
- Wear appropriate personal protective equipment (PPE), such as gloves and safety goggles, when handling the bushings.
- Do not exceed the recommended sizing limits during use to prevent damage to the product or injury.
- Handle the bushings with care to avoid sharp edges that may cause cuts or injuries.

## Instructions for Installation and Usage

### 1. Preparation:

- Clean the area where the bushings will be used to ensure safe installation.
- Gather necessary tools for installation, including any specific tools recommended by the manufacturer.

### 2. Installation:

- Select the appropriate bushing size based on your requirements. Refer to the last three digits of the part number (#RD73XXX) to identify the size.
- Insert the bushing into the designated area, ensuring it fits snugly without forcing it.
- If applicable, secure the bushing using screws or other fasteners as per the installation guidelines.

### 3. Usage:

- Follow the manufacturer's guidelines for the specific application of the bushing.
- Monitor the performance during use and stop immediately if you notice any irregularities.
- After use, clean the bushings properly to maintain their condition.

## Disposal Instructions

- Dispose of the product in accordance with local regulations.
- Do not dispose of the bushings in general waste if they are damaged or contain hazardous materials.
- Consider recycling options if available in your area.

## **Contact Information for Further Support**

For any questions or concerns regarding the product, please refer to the manufacturer's contact details provided on the packaging or visit their official website for more information.

By adhering to these safety guidelines and instructions, you can ensure a safe and effective experience with the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.302. Thank you for your attention to safety.
