

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.307

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.307](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001967
- Mfr. No.: 73307
- Diameter (in): .307
- Delivery weight: 0.032kg
- Shipping height: 8mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733079

# Safety Instructions for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.307

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.307. This guide provides essential safety information, usage instructions, and disposal guidelines to ensure your safety and the effective use of the product. Please read this guide carefully before using the product.

## General Safety Guidelines

- Ensure that all users read and understand these instructions before using the product.
- Always inspect the bushings for any signs of damage before use.
- Use the bushings only for their intended purpose as specified in this guide.
- Keep the bushings out of reach of children and vulnerable individuals.
- Report any unsafe products or incidents to local authorities.
- Stay informed about product recalls and safety updates through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling and using the bushings.
- Avoid using the bushings if they show signs of wear, cracks, or other damage.
- Ensure that the bushings are properly sized for your application to prevent excessive force during use.
- Do not exceed the recommended sizing diameters to avoid damaging the bushings or your equipment.
- Keep your hands and other body parts clear of any moving parts when using the bushings.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and equipment before starting the installation.
- Ensure that the work area is clean and free from hazards.

### 2. Installation:

- Select the appropriate bushing size based on your requirements.
- Ensure that the bushing is clean and free from debris.
- Insert the bushing into the designated area of your equipment according to the manufacturer's specifications.
- Secure the bushing in place as per the equipment's installation instructions.

### 3. Usage:

- Use the bushings only within the specified sizing diameters (.185" to .368") in .001" increments.
- Apply consistent and controlled force when using the bushings to reduce sizing effort.
- Regularly check the bushings during use for any signs of wear or damage.

## Disposal Instructions

- Dispose of any damaged or unusable bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste. Check with local waste management services for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries or further support regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.307, please refer to the product packaging or your retailer for contact information.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure safe and effective use of your STEEL NECK BUSHINGS.
