

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.314

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.314](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001969
- Mfr. No.: 73314
- Diameter (in): .314
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733147

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.314

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.314. This guide provides essential safety instructions and information to ensure the safe and effective use of this product. Please read the entire guide carefully before using the product.

## General Safety Guidelines

- Always use the product according to the manufacturer's instructions.
- Ensure that the working area is clean, dry, and welllit.
- Keep the product out of reach of children and pets.
- Inspect the product before each use for any signs of damage or wear.
- If the product is damaged, do not use it and contact the manufacturer for assistance.
- Report any unsafe conditions or accidents to the relevant authorities.

## Specific Safety Precautions for Use

- Handle the bushings with care to avoid injury.
- Wear appropriate personal protective equipment (PPE), such as safety goggles and gloves, when using the bushings.
- Do not exceed the recommended sizing diameters or use the bushings for unintended purposes.
- Ensure that the bushings are properly installed before use to prevent accidents.
- Be aware of the potential for sharp edges and take precautions to avoid cuts or abrasions.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials needed for installation.
- Ensure the work area is free from any obstructions.

### 2. Installation:

- Select the appropriate bushing size based on the last three digits of the part number (#RD73XXX).
- Insert the bushing into the designated sizing tool or equipment, ensuring a snug fit.
- Check that the bushing is properly aligned and secured.

### 3. Usage:

- Follow the specific instructions for the sizing tool or equipment being used with the bushing.
- Apply even pressure when sizing to ensure consistent results.
- Monitor the sizing process closely for any irregularities or issues.

### 4. PostUse:

- Remove the bushing from the tool or equipment carefully.
- Clean the bushing and surrounding area to prevent contamination or damage.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations and guidelines.
- Do not dispose of the bushings in regular household waste.
- Consider recycling options where available to minimize environmental impact.

## **Contact Information for Further Support**

For any questions or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.314, please refer to the manufacturer's contact details provided with the product packaging or documentation.

Thank you for your attention to these safety instructions. Your safety is our priority, and we wish you a successful and safe experience with your STEEL NECK BUSHINGS.
