

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.315

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.315](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001970
- Mfr. No.: 73315
- Diameter (in): .315
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733154

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.315

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.315. This guide provides essential safety instructions and precautions to ensure safe usage of the product. Please read this manual thoroughly before using the bushings.

General Safety Guidelines

- Always handle the bushings with care to avoid injury.
- Ensure that the bushings are used in accordance with the manufacturer's specifications.
- Keep the bushings out of reach of children and pets.
- Regularly inspect the bushings for any signs of wear or damage before use.
- If you notice any defects, discontinue use immediately and contact the manufacturer.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using this product.
- Ensure that your working area is clean and free from hazards.

Specific Safety Precautions for Use

- Do not exceed the recommended sizing diameters.
- Avoid using the bushings with incompatible materials or equipment.
- Ensure that the bushings are properly lubricated, if necessary, to prevent wear and tear.
- Use only in wellventilated areas to minimize exposure to any fumes or dust generated during use.
- Follow all local regulations regarding the use of steel components in your applications.
- Be aware of sharp edges when handling the bushings to prevent cuts or abrasions.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and equipment before starting the installation process.
- Ensure that the work area is welllit and organized.

2. Installation

- Select the appropriate bushing size based on your requirements. The size can be identified by the last three digits of the part number (#RD73XXX).
- Carefully insert the bushing into the designated area, ensuring a snug fit without forcing it.
- If applicable, apply lubricant to the bushing to facilitate smooth operation.

3. Usage

- Follow the manufacturer's guidelines for using the bushing in conjunction with your equipment.
- Monitor the operation for any unusual noises or performance issues.
- If any problems arise during use, stop immediately and inspect the bushing for damage.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local waste disposal regulations.
- Do not dispose of bushings in regular household waste.
- Consider recycling options if available in your area.

Contact Information for Further Support

For any questions or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.315, please refer to the manufacturer's contact details provided on the packaging or product documentation.

Conclusion

By adhering to these safety guidelines and precautions, you can ensure a safe and effective experience with the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.315. Thank you for your attention to safety, and enjoy using your product responsibly.
