

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.316

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.316](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001971
- Mfr. No.: 73316
- Diameter (in): .316
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733161

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.316

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.316. This guide provides essential safety instructions to ensure safe usage and handling of the product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Keep the bushings out of reach of children and vulnerable individuals.
- Regularly inspect the bushings for wear and damage before use.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay informed about product recalls and safety alerts through the EU Safety Gate platform.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the bushings.
- Avoid using the bushings if they show signs of cracks or other damage.
- Do not exceed the recommended sizing diameters as indicated by the part number (#RD73XXX).
- Ensure that the bushings are properly lubricated before use to minimize friction and wear.
- Use the bushings only for their intended purpose; do not modify or alter them in any way.

Instructions for Installation and Usage

1. Preparation

- Gather all necessary tools and equipment before starting the installation.
- Ensure the work area is clean and free of obstructions.

2. Installation Steps

- Select the appropriate size bushing based on the required diameter.
- Clean the area where the bushing will be installed to ensure a proper fit.
- Carefully insert the bushing into the designated area, ensuring it is aligned correctly.
- Secure the bushing in place according to the manufacturer's specifications.

3. Usage Steps

- Check the bushing for any signs of damage or wear before each use.
- Follow the recommended operating procedures to ensure safe and effective use.
- Monitor the performance of the bushing during operation and stop immediately if any issues arise.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste; check for recycling options or designated disposal facilities.

- Ensure that any packaging materials are also disposed of responsibly.

Contact Information for Further Support

For any safety inquiries or additional support, please refer to the manufacturer's contact information provided with the product packaging.

By following these safety instructions, you can ensure a safe and effective experience with the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.316. Thank you for your attention to safety.
