

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.326

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.326](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001976
- Mfr. No.: 73326
- Diameter (in): .326
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733260

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.326

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.326. This guide provides essential safety instructions to ensure the safe use and handling of this product. Please read this document carefully to understand the necessary precautions and guidelines.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as described in the product specifications.
- Always inspect the bushings for any visible damage before use. Do not use damaged bushings.
- Keep the bushings out of reach of children and vulnerable individuals to prevent accidental injury.
- Use personal protective equipment (PPE) such as safety glasses and gloves when handling and using the bushings.
- Report any unsafe conditions or incidents involving the product to the appropriate authorities.

Specific Safety Precautions for Use

- **Handling:**
 - Always handle the bushings with care to avoid dropping or damaging them.
 - Do not expose the bushings to extreme temperatures or harsh chemicals.
- **Installation:**
 - Ensure that the bushings are installed according to the manufacturer's instructions.
 - Verify that the sizing diameters are compatible with your equipment before installation.
- **Operation:**
 - Do not exceed the recommended sizing effort to avoid damaging the bushings.
 - Regularly check for wear and tear during use, and replace if necessary.
- **Storage:**
 - Store the bushings in a dry, cool place away from direct sunlight.
 - Keep the bushings in their original packaging or a protective case when not in use.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and equipment before starting the installation process.
- Ensure that your workspace is clean and welllit.

2. Installation Steps:

- Carefully remove the bushing from its packaging.
- Inspect the bushing for any signs of damage.

- Align the bushing with the corresponding part of your equipment.
- Gently insert the bushing, ensuring it fits snugly without excessive force.
- Secure the bushing in place as per the equipment's instructions.

3. Usage:

- Begin using the equipment with the installed bushing, following all operational guidelines.
- Monitor the performance of the bushing during use and make adjustments as necessary.

4. PostUsage:

- After use, clean the bushing with a soft cloth to remove any debris or contaminants.
- Store the bushing properly to maintain its condition for future use.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste.
- Consider recycling options if available in your area.

Contact Information for Further Support

For any inquiries or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.326, please consult the manufacturer's customer support or your retailer for guidance.

Conclusion

By following these safety instructions, you can ensure the effective and safe use of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.326. Always prioritize safety and compliance with the EU General Product Safety Regulation to protect yourself and others. Thank you for your attention to these important guidelines.
