

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.340

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.340](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001978
- Mfr. No.: 73340
- Diameter (in): .340
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733406

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.340

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.340. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this manual carefully before use and keep it for future reference.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's specifications.
- Always inspect the bushings for any signs of damage or wear before use.
- Keep the bushings out of reach of children and vulnerable individuals to prevent accidents.
- Report any unsafe product conditions or accidents to the relevant authorities.
- Check for recall updates on the EU's Safety Gate platform regularly.

Specific Safety Precautions for Use

- Handle the bushings with care to avoid injury from sharp edges.
- Do not exceed the recommended sizing diameters to prevent equipment malfunction.
- Ensure that the work area is clean and free from any obstructions before use.
- Wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when using the bushings.
- Use the bushings only for their intended purpose; misuse may lead to accidents or injuries.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting the installation.
- Ensure that the work area is welllit and organized.

2. Installation:

- Carefully remove the bushing from its packaging.
- Inspect the bushing for any visible defects.
- Align the bushing with the corresponding equipment following the manufacturer's instructions.
- Secure the bushing in place using the appropriate fastening methods.

3. Usage:

- Once installed, verify that the bushing is properly seated and secured.
- Follow the recommended sizing procedure, applying consistent pressure to reduce sizing effort.
- Monitor the bushing during use for any signs of wear or malfunction.

4. PostUsage:

- After use, clean the bushing to remove any debris or contaminants.
- Store the bushing in a dry and secure location to prevent damage.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste.
- Check for recycling options in your area to ensure environmentally friendly disposal.

Contact Information for Further Support

For any questions or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.340, please refer to the manufacturer's contact details provided with the product packaging. It is important to have access to support for any safety inquiries or product issues.

Thank you for your attention to these safety guidelines. By following these instructions, you can ensure a safe and effective experience with your product.
