

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.363

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.363](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001984
- Mfr. No.: 73363
- Diameter (in): .363
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733635

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.363

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.363. This guide provides essential safety instructions to ensure the safe and effective use of the product. Please read this guide thoroughly before use to ensure your safety and the safety of others.

General Safety Guidelines

- Always ensure that the bushing is suitable for your specific application before use.
- Inspect the bushing for any signs of damage or wear before each use.
- Use the product only for its intended purpose as specified in this guide.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the appropriate authorities.
- Stay informed about safety updates and recall information through the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Ensure that the bushing is properly sized for your application to prevent malfunctions.
- Avoid using excessive force during sizing to prevent injury or damage to the bushing.
- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling the bushing.
- Do not modify or alter the bushing in any way, as this may compromise its safety and effectiveness.
- Store the bushing in a dry and secure location to prevent rust and damage.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials for installation.
- Ensure that the work area is clean and free from obstructions.

2. Installation:

- Carefully select the appropriate bushing size based on your specific needs.
- Align the bushing with the corresponding component, ensuring a snug fit.
- Gently press or install the bushing into place, avoiding excessive force.

3. Usage:

- Once installed, ensure that the bushing is functioning correctly and securely.
- Monitor the bushing during use for any signs of wear or damage.
- If any issues arise, discontinue use immediately and inspect the bushing.

Disposal Instructions

- Dispose of the bushing in accordance with local regulations for metal products.
- Do not dispose of the bushing in regular household waste.
- Consider recycling the bushing if possible, as this is environmentally friendly.

Contact Information for Further Support

For any questions or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.363, please refer to the manufacturer's website or contact your local distributor for assistance.

Thank you for prioritizing safety and compliance while using the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.363. Your adherence to these guidelines helps ensure a safe and effective experience.
