

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.364

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.364](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001985
- Mfr. No.: 73364
- Diameter (in): .364
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733642

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.364

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.364. This guide provides essential safety information to ensure the safe and effective use of this product. Please read this guide carefully before using the bushings.

## General Safety Guidelines

- Ensure that all users are familiar with the proper use of the product.
- Always inspect the bushings for any signs of damage or wear before use.
- Keep the bushings out of reach of children and vulnerable individuals.
- Use the bushings only for their intended purpose as specified in this guide.
- Report any unsafe conditions or incidents to the appropriate authorities.
- Stay updated on product recalls through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the bushings.
- Avoid using the bushings if you are not familiar with their operation or if you feel unwell.
- Do not exceed the recommended sizing limits of the bushings to prevent damage or injury.
- Ensure that the bushings are properly cleaned and maintained to avoid contamination or malfunction.
- Store the bushings in a dry, safe place when not in use to prevent rust or damage.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and equipment before starting the installation.
- Ensure that the work area is clean and free of hazards.

### 2. Installation:

- Select the appropriate bushing size based on the last three digits of the part number (#RD73XXX).
- Insert the bushing into the designated chamber or tool, ensuring a snug fit.
- Confirm that the bushing is securely in place before proceeding.

### 3. Usage:

- Apply even pressure when using the bushing to achieve the desired sizing.
- Monitor the bushing for any signs of wear or damage during use.
- If excessive force is required, stop using the bushing immediately and inspect for issues.

### 4. PostUse Care:

- Clean the bushings after each use to remove any debris or contaminants.
- Store the bushings in their original packaging or a designated storage area.

## **Disposal Instructions**

- Dispose of the bushings in accordance with local regulations regarding metal waste.
- Do not dispose of the bushings in regular household waste.
- If the bushings are damaged or no longer usable, consider recycling options if available.

## **Contact Information for Further Support**

For any questions or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.364, please refer to the product packaging or the retailer where the product was purchased for contact information.

By following these safety instructions, you can help ensure a safe and effective experience with your STEEL NECK BUSHINGS. Thank you for your attention to these guidelines.
