

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.365

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.365](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001986
- Mfr. No.: 73365
- Diameter (in): .365
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733659

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.365

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.365. This guide provides essential safety instructions and usage guidelines to ensure safe handling and operation of the product. Please read this document carefully before using the bushings.

General Safety Guidelines

- Ensure that the bushings are used only for their intended purpose.
- Keep the bushings out of reach of children and vulnerable individuals.
- Always inspect the bushings for damage before use. Do not use if damaged.
- Follow all instructions for installation and usage to avoid potential hazards.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- **Hazard Awareness:**
 - The bushings are made of heat-treated steel and are designed for high durability. However, they can cause injury if not handled properly.
- **Personal Protective Equipment (PPE):**
 - Wear appropriate safety gear, such as gloves and safety glasses, when handling the bushings.
- **Handling:**
 - Handle the bushings with care to avoid dropping or damaging them.
- **Storage:**
 - Store the bushings in a dry, cool place away from direct sunlight and extreme temperatures.
- **Installation:**
 - Follow the provided installation instructions carefully to prevent accidents.

Instructions for Installation and Usage

1. Preparation:

- Ensure you have all necessary tools and equipment ready before starting the installation.
- Verify that the bushing size is correct for your application by checking the last three digits of the part number (#RD73XXX).

2. Installation Steps:

- Clean the area where the bushing will be installed to ensure a proper fit.

- Align the bushing with the designated area and ensure it fits snugly.
- If applicable, use the appropriate tools to secure the bushing in place.
- Doublecheck that the bushing is properly installed and that there are no gaps or misalignments.

3. Usage:

- Use the bushings according to the manufacturer's specifications.
- Monitor the bushings during use for any signs of wear or damage.
- If you notice any issues, stop using the bushings immediately and inspect them.

Disposal Instructions

- Dispose of any damaged or worn bushings according to local regulations.
- Do not dispose of bushings in regular household waste.
- Consider recycling options where available.

Contact Information for Further Support

For any questions or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.365, please refer to the contact information provided on the packaging or the manufacturer's website. It is important to have access to support for any safety inquiries.

Thank you for taking the time to read this safety instruction guide. Your safety is our priority, and we hope you enjoy using your STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.365 responsibly.
