

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.251

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.251](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001993
- Mfr. No.: 73251
- Diameter (in): .251
- Delivery weight: 0.032kg
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732515

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.251

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.251. This guide provides essential safety information and instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the bushings.

General Safety Guidelines

- Ensure that all users are familiar with the safety guidelines outlined in this document.
- Always inspect the bushings for any signs of damage or wear before use.
- Use the bushings only for their intended purpose as specified by the manufacturer.
- Keep the bushings out of reach of children and vulnerable individuals.
- Report any unsafe product conditions or accidents to the authorities immediately.
- Check for recall updates on the EU's Safety Gate platform regularly.

Specific Safety Precautions for Use

- **Personal Protective Equipment (PPE):**

- Always wear appropriate PPE, including safety glasses and gloves, when handling the bushings.

- **Handling:**

- Handle the bushings with care to avoid dropping or damaging them.

- **Compatibility:**

- Ensure that the bushings are compatible with your specific equipment and applications.

- **Storage:**

- Store the bushings in a dry and secure location to prevent damage.

- **Inspection:**

- Regularly inspect the bushings for any signs of wear or damage. Do not use if damaged.

Instructions for Installation and Usage

1. **Preparation:**

- Ensure that you have all necessary tools and equipment ready before starting the installation.
 - Verify that the bushing size is correct for your application by checking the last three digits of the part number (#RD73XXX).

2. **Installation:**

- Clean the area where the bushing will be installed to ensure a proper fit.

- Insert the bushing into the designated area, ensuring it is seated correctly.
- Secure the bushing as per your equipment's specifications.

3. Usage:

- Follow the manufacturer's guidelines for operating the equipment with the installed bushing.
- Monitor the performance during use to ensure there are no unusual noises or movements.

4. PostUsage:

- After use, inspect the bushing for any signs of wear or damage.
- If any issues are detected, remove the bushing from service and replace it as necessary.

Disposal Instructions

- Dispose of the bushings in accordance with local regulations and guidelines for metal products.
- Do not dispose of bushings in regular household waste.
- Check for any specific recycling programs available in your area for metal components.

Contact Information for Further Support

For any inquiries regarding safety or product information, please refer to the manufacturer's contact details provided on the packaging or product documentation.

By following these guidelines, you can ensure the safe and effective use of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.251. Thank you for your attention to safety, and enjoy using your product responsibly.
