

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.272

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.272](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001995
- Mfr. No.: 73272
- Diameter (in): .272
- Delivery weight: 0.032kg
- Shipping height: 8mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732720

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.272

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.272. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the bushings.

## General Safety Guidelines

- Always ensure that the product is used in accordance with the manufacturer's instructions.
- Inspect the bushings for any signs of damage before use. Do not use damaged products.
- Keep the bushings out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about any recall updates on the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Ensure that the sizing diameters are appropriate for your application.
- Use the bushings only for their intended purpose to avoid misuse and potential hazards.
- Wear appropriate personal protective equipment (PPE) such as gloves and safety glasses during installation and use.
- Avoid using excessive force when sizing to prevent injury or damage to the bushings.
- Store the bushings in a dry, safe place to prevent rust and degradation.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and materials before starting the installation.
- Ensure a clean workspace to avoid contamination of the bushings.

### 2. Installation:

- Select the appropriate bushing size based on the last three digits of the part number (#RD73XXX).
- Insert the bushing into the sizing die, ensuring it is seated properly.
- Secure the die according to the manufacturer's specifications.

### 3. Usage:

- When using the bushings, apply consistent and moderate pressure to ensure proper sizing.
- Monitor the operation closely to identify any unusual noises or resistance that may indicate a problem.
- If any issues arise, stop using the bushings immediately and inspect for damage.

### 4. PostUse Care:

- Clean the bushings after use to remove any debris or residue.
- Store the bushings in their original packaging or a protective case to prevent damage.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local waste disposal regulations.
- Do not dispose of bushings in regular household waste. Instead, check for recycling options in your area.

## **Contact Information for Further Support**

For any safety inquiries or further assistance regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.272, please contact the manufacturer's customer service or your local distributor.
