

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.273

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.273](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001996
- Mfr. No.: 73273
- Diameter (in): .273
- Delivery weight: 0.032kg
- Shipping height: 8mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732737

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.273

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.273. This guide provides important safety information and instructions to ensure the safe and effective use of this product. Please read this guide carefully before use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified.
- Always inspect the bushings for any visible damage before use.
- Keep the product out of reach of children and vulnerable individuals.
- Use personal protective equipment (PPE) such as gloves and safety glasses when handling the bushings.
- Follow all local regulations regarding the disposal of metal products.

Specific Safety Precautions for Use

- Do not exceed the specified sizing diameters when using the bushings.
- Ensure that the bushings are properly installed to avoid any operational hazards.
- Avoid using the bushings in environments with excessive moisture or corrosive substances.
- If the bushing shows signs of wear or damage, discontinue use immediately and replace it.
- Be aware of the potential for sharp edges when handling the bushings.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools for installation.
- Ensure that your workspace is clean and free of any obstructions.

2. Installation:

- Select the appropriate bushing size based on your requirements.
- Carefully insert the bushing into the designated area, ensuring a snug fit.
- If applicable, secure the bushing using the appropriate fasteners.

3. Usage:

- Use the bushings in accordance with the manufacturer's specifications.
- Monitor the performance of the bushings during use to ensure they are functioning correctly.
- If any unusual sounds or vibrations occur, stop using the product immediately and inspect it for issues.

4. Maintenance:

- Regularly clean the bushings to remove any debris or buildup that may affect performance.
- Perform periodic inspections to check for wear and tear.

Disposal Instructions

- Dispose of the bushings in accordance with local regulations for metal products.
- Do not dispose of the bushings in regular household waste.
- Consider recycling the bushings if possible.

Contact Information for Further Support

For any questions or concerns regarding the safety and use of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.273, please reach out to the manufacturer's customer support team. They can provide additional guidance and assistance.

Conclusion

By following these safety instructions and guidelines, you can ensure the safe use of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.273. Always prioritize safety and proper handling to maximize the longevity and effectiveness of the product. Thank you for your attention to these important details.
