

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.281

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.281](#)
- Manufacturer: [REDDING](#)
- Product no.: 749001998
- Mfr. No.: 73281
- Diameter (in): .281
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732812

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.281

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.281. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this guide carefully before using the bushings.

General Safety Guidelines

- Always follow the manufacturer's instructions for use.
- Ensure that the product is suitable for your specific application.
- Regularly inspect the bushings for any signs of wear or damage before use.
- Keep the bushings out of reach of children and vulnerable individuals.
- Report any unsafe products or accidents to the relevant authorities.
- Stay informed about recall updates via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Avoid using the bushings if they show signs of damage or excessive wear.
- Use appropriate personal protective equipment (PPE) such as gloves and safety glasses when handling the bushings.
- Ensure that the bushings are properly sized for your application to avoid excessive sizing effort.
- Do not exceed the recommended sizing diameters to prevent damage to the bushings or the equipment.
- Do not attempt to modify or repair the bushings. If damaged, replace them with new ones.

Instructions for Installation and Usage

1. Preparation:

- Ensure that your workspace is clean and free of obstructions.
- Gather all necessary tools and equipment before starting.

2. Installation:

- Select the appropriate bushing size based on your requirements. Refer to the part number (#RD73XXX) for size identification.
- Carefully insert the bushing into the designated area of your equipment.
- Ensure that the bushing is seated properly and securely.

3. Usage:

- Follow the manufacturer's recommended procedures for using the bushings.
- Monitor the performance of the bushings during use to ensure they are functioning correctly.
- If you notice any unusual noises or performance issues, stop using the equipment immediately and inspect the bushings.

Disposal Instructions

- Dispose of used or damaged bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste.
- Check with local waste management authorities for proper disposal methods.

Contact Information for Further Support

For any safety inquiries or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.281, please refer to the manufacturer's website or contact their customer support.

Thank you for taking the time to read this safety instruction guide. Your safety is our priority, and we encourage you to follow these guidelines for a safe and effective experience with your product.
