

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.284

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.284](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002001
- Mfr. No.: 73284
- Diameter (in): .284
- Delivery weight: 0.032kg
- Shipping height: 8mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732843

## Item details

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.284

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.284. This guide provides essential safety information and instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the bushings to maximize safety and performance.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the bushings for signs of damage or wear before use.
- Keep the product out of reach of children and vulnerable individuals.
- Follow all manufacturer instructions and recommendations.
- In case of any malfunction or unexpected behavior, discontinue use immediately and consult a professional.

## Specific Safety Precautions for Use

- **Potential Hazards:**
  - Risk of personal injury if the bushing is damaged or improperly installed.
  - Risk of equipment malfunction if used with incompatible tools or machinery.
- **Avoiding Hazards:**
  - Always use the bushings with compatible resizing equipment.
  - Do not exceed the recommended sizing diameters.
  - Wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the bushings.
  - Ensure that the work area is clean and free of obstructions.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and equipment before starting the installation.
- Ensure that your work area is welllit and organized.

### 2. Installation:

- Select the appropriate bushing size based on your specific needs, indicated by the last three digits of the part number (#RD73XXX).
- Insert the bushing into the resizing die, ensuring it is seated correctly.
- Tighten the die according to the manufacturer's specifications to secure the bushing.

### 3. Usage:

- Load the appropriate cartridge case into the resizing die.
- Operate the resizing tool according to the manufacturer's instructions.

- Monitor the resizing process to ensure it is functioning correctly.
- After resizing, inspect the cartridge cases for uniformity and integrity.

#### **4. PostUsage:**

- Clean the bushings after use to remove any debris or residue.
- Store the bushings in a dry, cool place to prevent corrosion and damage.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not throw the bushings in regular household waste. Instead, take them to a designated recycling or hazardous waste facility if required.
- Ensure that all packaging materials are disposed of responsibly.

## **Contact Information for Further Support**

For any safety inquiries or further support, please refer to the manufacturer's documentation or visit their official website.

By following these guidelines, you can ensure the safe and effective use of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.284. Always prioritize safety and consult professionals if you have any doubts or questions regarding the product. Thank you for your attention to safety!
