

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.310

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.310](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002005
- Mfr. No.: 73310
- Diameter (in): .310
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733109

# **Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.310**

## **Introduction**

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.310. This guide provides essential safety instructions and guidelines to ensure your safe use of this product. Please read this document carefully before using the bushings to maximize safety and performance.

## **General Safety Guidelines**

- Ensure that the product is used as intended and in accordance with the manufacturer's instructions.
- Regularly inspect the bushings for any signs of wear or damage before use.
- Store the bushings in a safe, dry place away from children and pets.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling or using the bushings.
- Report any unsafe conditions or incidents related to the product to the appropriate authorities.

## **Specific Safety Precautions for Use**

- Handle the bushings with care to avoid injury from sharp edges.
- Do not use the bushings if they are damaged or show signs of excessive wear.
- Ensure that the bushings are properly sized and compatible with your equipment to prevent malfunction.
- Avoid using the bushings in extreme temperatures or conditions that exceed the specified limits.
- Keep the working area clean and free from hazards to minimize the risk of accidents.

## **Instructions for Installation and Usage**

### **1. Preparation:**

- Gather all necessary tools and equipment before beginning the installation process.
- Ensure that the work area is well lit and free from distractions.

### **2. Installation:**

- Select the appropriate bushing size based on your requirements (available sizes range from .185" to .368").
- Carefully insert the bushing into the designated area of your equipment.
- Ensure the bushing is seated properly and securely to avoid any movement during use.

### **3. Usage:**

- Follow the manufacturer's guidelines for the specific equipment with which the bushing is being used.
- Monitor the bushing during operation for any unusual sounds or movements that may indicate a problem.
- If any issues arise, discontinue use immediately and inspect the bushing for damage.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not throw bushings in regular trash; consider recycling options if available.
- Ensure that bushings are out of reach of children and pets during disposal.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the safety and usage of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.310, please consult the manufacturer's customer service or your local retailer for assistance.

Remember, your safety is our priority. Adhering to these guidelines will help ensure a safe and effective experience with your product.
