

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.312

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.312](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002007
- Mfr. No.: 73312
- Diameter (in): .312
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733123

# STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.312 Safety Instruction Guide

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.312. This safety instruction guide provides essential information to ensure safe usage and compliance with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the product.

## General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly check the product for any signs of wear or damage before use.
- Report any unsafe products or incidents to appropriate authorities.
- Stay informed about product recalls through the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as gloves and safety glasses when handling the bushings.
- Avoid using the bushings if they show signs of damage, such as cracks or severe wear.
- Ensure that the bushings are compatible with your equipment before use to prevent accidents.
- Do not exceed the recommended sizing diameters to ensure safe and effective operation.
- Store the bushings in a dry and secure location to prevent rust and damage.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and equipment before beginning the installation.
- Ensure that your workspace is clean and free from hazards.

### 2. Installation:

- Select the appropriate bushing size based on the last three digits of the part number (#RD73XXX).
- Insert the bushing into the designated area of your equipment according to the manufacturer's specifications.
- Ensure a snug fit without forcing the bushing, as this may cause damage.

### 3. Usage:

- Use the bushing in accordance with the equipment's operating instructions.
- Monitor the bushing during use for any unusual noises or performance issues.
- If any problems arise, stop using the equipment immediately and inspect the bushing.

### 4. Maintenance:

- Regularly clean the bushings with a soft cloth to remove any debris or contaminants.
- Inspect the bushings periodically for signs of wear or damage and replace them as necessary.

## **Disposal Instructions**

- Dispose of the product in accordance with local regulations for metal waste.
- Do not dispose of the bushings in regular household waste.
- Consider recycling options available in your area to minimize environmental impact.

## **Contact Information for Further Support**

For any safety inquiries or further support, please refer to the manufacturer's contact information provided with the product packaging or visit the manufacturer's website.

Thank you for following these safety instructions. Your safety and satisfaction are our top priorities.
