

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.327

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.327](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002008
- Mfr. No.: 73327
- Diameter (in): .327
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733277

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.327

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.327. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read and follow these guidelines carefully to minimize risks and enhance your experience.

General Safety Guidelines

- Always handle the bushings with care to avoid injury.
- Ensure that the bushings are used in accordance with the manufacturer's specifications.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the bushings for wear or damage before use.
- If you notice any defects, do not use the product and contact the manufacturer for guidance.

Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE) such as safety goggles and gloves when handling the bushings.
- Avoid using the bushings in conditions that exceed their rated specifications, including excessive pressure or temperature.
- Do not modify or alter the bushings in any way, as this may compromise their safety and performance.
- Ensure that the bushings are compatible with your specific application to prevent malfunction or accidents.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and equipment before starting the installation process.
- Ensure that the workspace is clean and free of any hazards.

2. Installation:

- Select the appropriate bushing size based on your specific requirements.
- Carefully insert the bushing into the designated area, ensuring a snug fit.
- If necessary, use a press tool to secure the bushing in place, following the manufacturer's guidelines.

3. Usage:

- Once installed, monitor the bushing during initial use to ensure it is functioning correctly.
- Avoid applying excessive force during operation to prevent damage to the bushing or surrounding components.
- Regularly check the bushing for signs of wear or damage during use.

Disposal Instructions

- Dispose of any worn or damaged bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste; check for recycling options or designated disposal facilities.
- Follow any specific disposal instructions provided by the manufacturer.

Contact Information for Further Support

For any safety inquiries or further assistance regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.327, please refer to the manufacturer's contact information provided with the product packaging or on their official website.

By adhering to these safety guidelines, you can ensure a safe and effective experience with the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.327. Thank you for prioritizing safety!
