

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.328

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.328](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002009
- Mfr. No.: 73328
- Diameter (in): .328
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733284

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.328

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.328. This guide provides essential safety instructions to ensure safe and effective use of the product. Please read this guide carefully before using the bushings.

## General Safety Guidelines

- Always ensure the bushing is compatible with your equipment before use.
- Inspect the bushing for any visible damage or defects before installation.
- Store the bushings in a dry, cool place to prevent rust and damage.
- Keep the bushings out of reach of children and pets.
- Report any unsafe products or incidents to the relevant authorities immediately.
- Check for updates on product recalls via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- Use protective eyewear when handling or using the bushings to prevent eye injuries.
- Avoid using excessive force during installation to prevent breakage or injury.
- Do not exceed the recommended sizing diameters to prevent equipment damage.
- Ensure that all equipment is turned off and disconnected from power sources before installation.
- Follow the manufacturer's specifications for usage to ensure safety and effectiveness.

## Instructions for Installation and Usage

### 1. Preparation

- Gather all necessary tools and safety equipment.
- Ensure your work area is clean and welllit.

### 2. Installation

- Select the correct bushing size based on your needs.
- Align the bushing with the corresponding equipment.
- Gently insert the bushing into the designated area, ensuring a snug fit.
- If resistance is felt, do not force the bushing. Instead, check for alignment and compatibility.

### 3. Usage

- Once installed, operate the equipment according to the manufacturer's instructions.
- Monitor the bushing for any signs of wear or damage during use.
- If you notice any unusual sounds or performance issues, stop using the equipment immediately and inspect the bushing.

### 4. Maintenance

- Regularly clean the bushing using a dry cloth to remove any debris or residue.
- Inspect the bushing periodically for wear and replace it if necessary.

## **Disposal Instructions**

- Dispose of the bushings in accordance with local regulations.
- Do not dispose of the bushings in regular household waste.
- If the bushings are damaged or no longer usable, contact your local waste management facility for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.328, please consult the product packaging or contact the retailer from whom you purchased the product.
