

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.241

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.241](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002014
- Mfr. No.: 73241
- Diameter (in): .241
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732416

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.241

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.241. This product is designed for precision and reliability in your reloading processes. To ensure safe and effective use, please read this safety instruction guide carefully.

## General Safety Guidelines

- Ensure that all users are familiar with the product and its intended use.
- Use the product only as specified in this guide to minimize risks.
- Regularly inspect the bushings for wear or damage before each use.
- Store the bushings in a dry place to prevent corrosion.
- Keep out of reach of children and vulnerable individuals.

## Specific Safety Precautions for Use

- **Personal Protective Equipment (PPE):** Always wear safety glasses and gloves when handling the bushings to protect against sharp edges and debris.
- **Work Environment:** Ensure your workspace is clean, welllit, and free from obstructions.
- **Handling:** Handle the bushings with care to avoid dropping or damaging them.
- **Sizing Process:** Follow the manufacturer's instructions for sizing to prevent excessive force that could lead to injury or equipment damage.
- **Compatibility:** Verify that the bushing size matches your equipment specifications before use.

## Instructions for Installation and Usage

### 1. Preparation:

- Clean the bushing and the reloading equipment to remove any debris or residue.
- Ensure that the reloading press is securely mounted and stable.

### 2. Installation:

- Select the appropriate bushing size based on your reloading needs. The last three digits of the part number (#RD73XXX) indicate the bushing size.
- Insert the bushing into the designated area of your reloading equipment, ensuring a snug fit.

### 3. Usage:

- Follow the reloading equipment's manual for proper operation.
- Gradually apply pressure when resizing cases to avoid damaging the bushing or the equipment.
- Monitor the sizing process closely to ensure consistent results.

### 4. PostUse Care:

- After use, clean the bushing to remove any residue.
- Inspect the bushing for any signs of wear or damage before storing.

## **Disposal Instructions**

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste. Check for recycling options or hazardous waste disposal facilities in your area.

## **Contact Information for Further Support**

For any safety inquiries or productrelated questions, please refer to the manufacturer's contact information provided with the product packaging. It is important to have access to support for any concerns regarding the safe use of this product.

By following these safety guidelines and instructions, you will ensure a safer and more effective experience with your STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.241. Stay safe and enjoy your reloading activities!
