

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.261

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.261](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002015
- Mfr. No.: 73261
- Diameter (in): .261
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732614

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.261

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.261. This guide provides important safety instructions to ensure the safe and effective use of this product. Please read this guide carefully before using the bushings.

## General Safety Guidelines

- Ensure that the bushings are used only for their intended purpose as specified in this manual.
- Always inspect the bushings for any visible damage before use. Do not use if damaged.
- Keep the bushings out of reach of children and vulnerable individuals to prevent accidental injury.
- Follow all local regulations and guidelines regarding the safe handling and use of metal products.
- In case of an accident or injury, report it to the relevant authorities and seek medical assistance if necessary.
- Regularly check for product recalls and safety alerts through the EU Safety Gate platform.

## Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE), such as gloves and safety goggles, when handling the bushings.
- Ensure that your workspace is clean and free of obstructions to prevent accidents.
- Avoid using excessive force when sizing, as this may lead to injury or damage to the bushings.
- Do not modify or alter the bushings in any way, as this can compromise their safety and effectiveness.
- Store the bushings in a dry and secure location to prevent rust and damage.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and equipment before starting the installation.
- Ensure that the work area is welllit and organized.

### 2. Installation:

- Carefully remove the bushing from its packaging.
- Inspect the bushing for any signs of damage or defects.
- Align the bushing with the corresponding part of your equipment or tool.
- Gently insert the bushing, ensuring it fits securely without forcing it.

### 3. Usage:

- When using the bushing, apply even pressure to avoid uneven wear or damage.
- Monitor the bushing during use for any signs of excessive wear or damage.
- If any issues arise, stop using the bushing immediately and inspect it for problems.

## **Disposal Instructions**

- Dispose of the bushings in accordance with local waste disposal regulations.
- Do not dispose of the bushings in regular household waste if they are damaged or contain hazardous materials.
- Consider recycling the bushings if possible, as steel is a recyclable material.

## **Contact Information for Further Support**

For any inquiries regarding the safety or use of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.261, please refer to the relevant authorities or your point of purchase for assistance.

Thank you for prioritizing safety in your use of this product.
