

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.262

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.262](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002016
- Mfr. No.: 73262
- Diameter (in): .262
- Delivery weight: 0.032kg
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732621

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.262

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.262. This guide provides important safety instructions and guidelines to ensure the safe use of this product. Please read this document carefully before using the bushings to avoid any potential hazards.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Regularly inspect the bushings for any signs of wear or damage before use.
- Store the bushings in a cool, dry place away from direct sunlight and moisture.
- Keep the bushings out of reach of children and pets to prevent accidental injury.
- Report any unsafe products or incidents to the relevant authorities.

Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling the bushings.
- Do not exceed the specified sizing diameters to avoid damaging the bushings or the equipment.
- Ensure that the bushings are properly installed and secured before use.
- Avoid using the bushings for any purpose other than their intended use.
- Be cautious when working with tools or machinery that involve the bushings to prevent accidents.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and equipment before beginning the installation.
- Ensure that the work area is clean and free of hazards.

2. Installation:

- Select the appropriate bushing size based on the last three digits of the part number (#RD73XXX).
- Carefully insert the bushing into the designated area of your equipment.
- Ensure that the bushing is seated properly and securely.

3. Usage:

- Follow the manufacturer's guidelines for operating your equipment with the installed bushings.
- Monitor the performance of the bushings during use to detect any irregularities.
- If any issues arise, stop using the equipment immediately and inspect the bushings for damage.

Disposal Instructions

- Dispose of any damaged or worn bushings according to local regulations.
- Do not dispose of bushings in regular household waste; check for recycling options in your area.
- Ensure that disposed bushings are out of reach of children and pets.

Contact Information for Further Support

For any inquiries regarding the safety and usage of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.262, please refer to the manufacturer's customer support resources.

Thank you for your attention to these safety guidelines. Your safety is our priority, and we hope you have a safe and successful experience with your new bushings.
