

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.264

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.264](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002017
- Mfr. No.: 73264
- Diameter (in): .264
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732645

# Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.264

## Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.264. This guide provides important safety information to ensure the safe use and handling of the product. Please read this guide carefully before using the bushings.

## General Safety Guidelines

- Ensure that the bushings are used in accordance with the manufacturer's specifications to prevent accidents and injuries.
- Regularly inspect the bushings for any signs of wear or damage before each use.
- Store bushings in a dry and secure location to prevent unauthorized access, especially from children.
- Follow all local regulations regarding the use and disposal of metal products.

## Specific Safety Precautions for Use

- Always wear appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling and using the bushings.
- Do not exceed the specified sizing diameters to avoid damage to the bushings or the equipment in which they are used.
- Ensure that the bushing is properly aligned and secured before applying any force during use.
- Keep hands and other body parts clear of moving parts when using equipment with the bushings installed.
- If you notice any unusual noise or performance issues during use, cease operation immediately and inspect the bushings.

## Instructions for Installation and Usage

### 1. Preparation:

- Gather all necessary tools and safety equipment before starting the installation process.
- Ensure that the work area is clean and free from clutter.

### 2. Installation:

- Select the appropriate bushing size based on your requirements. The last three digits of the part number (#RD73XXX) indicate the bushing size.
- Insert the bushing into the designated area of your equipment, ensuring a snug fit.
- Secure the bushing in place according to the equipment manufacturer's instructions.

### 3. Usage:

- When using the bushings, apply force gradually and evenly to avoid sudden stress that could lead to failure.
- Monitor the performance of the bushings during operation. If you encounter difficulties, stop using the equipment and check the bushing for damage or improper installation.

## **Disposal Instructions**

- Dispose of worn or damaged bushings in accordance with local regulations regarding metal waste.
- Do not dispose of bushings in regular household waste. Check with local recycling centers for proper disposal methods.

## **Contact Information for Further Support**

For any inquiries regarding the safety and use of the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.264, please refer to the manufacturer's customer support resources. Always ensure you have the product details ready when seeking assistance.

## **Conclusion**

By following the safety guidelines and instructions provided in this guide, you can ensure a safe and effective experience with the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.264. Stay informed about product recalls and safety updates through the EU's Safety Gate platform. Thank you for your attention to safety.
