

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.285

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.285](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002018
- Mfr. No.: 73285
- Diameter (in): .285
- Delivery weight: 0.032kg
- Shipping height: 8mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732850

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.285

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.285. This guide provides important safety instructions to ensure the safe and effective use of the product. Please read this document carefully before using the bushings to avoid potential hazards.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose.
- Always inspect the bushings for any signs of damage before use. Do not use damaged bushings.
- Keep the product out of reach of children and vulnerable individuals.
- Follow the manufacturer's instructions for use and maintenance.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Personal Protective Equipment (PPE):**

- Always wear appropriate PPE, such as safety glasses and gloves, when handling and installing the bushings.

- **Work Environment:**

- Ensure that your work area is clean, dry, and welllit.
- Avoid working in damp or wet conditions to prevent slipping or other accidents.

- **Handling:**

- Handle the bushings with care to avoid dropping them, which could cause damage or injury.
- Do not attempt to modify or alter the bushings in any way.

- **Sizing and Compatibility:**

- Ensure that the bushing size is compatible with your equipment. Refer to the last three digits of the part number (#RD73XXX) to identify the size.
- Use only bushings that fall within the specified sizing range of .185" to .368".

- **Installation:**

- Follow the installation instructions carefully to avoid misalignment or improper fitting.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before beginning the installation process.
- Ensure that the work area is clean and free of obstructions.

2. Installation Steps:

- Select the appropriate bushing size based on your requirements.
- Align the bushing with the corresponding component, ensuring a proper fit.
- Gently press or slide the bushing into place, ensuring that it is seated correctly.
- Check for any gaps or misalignment and adjust as necessary.

3. PostInstallation:

- Inspect the installed bushing to confirm it is secure and properly fitted.
- Test the assembly to ensure it operates correctly without any unusual noises or movements.

Disposal Instructions

- Dispose of any damaged or unused bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste. Check with local authorities for proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.285, please consult the manufacturer's customer service or support resources. Ensure you have the product details and part number available for reference.

By following these safety instructions, you can ensure a safe and effective experience with the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.285. Thank you for your attention to safety!
