

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.288

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.288](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002021
- Mfr. No.: 73288
- Diameter (in): .288
- Delivery weight: 0.032kg
- Shipping height: 8mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732881

Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.288

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.288. This guide provides essential safety instructions to ensure the safe and effective use of this product. Please read the entire guide carefully before using the bushings.

General Safety Guidelines

- Ensure that the bushings are used only for their intended purpose.
- Always inspect the bushings for damage before use. Do not use if any defects are found.
- Keep the bushings out of reach of children and vulnerable individuals.
- Follow all local regulations regarding the use and disposal of steel products.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Use appropriate personal protective equipment (PPE), such as safety glasses and gloves, when handling the bushings.
- Avoid direct contact with the edges of the bushings to prevent cuts or injuries.
- Ensure that the work area is clean and free from hazards to prevent accidents.
- Be cautious of the surface hardness (Rc 6062) which may cause the bushings to be more susceptible to wear and tear if misused.
- Do not exceed the recommended sizing diameters when using the bushings.
- Follow the manufacturer's recommendations regarding the sizing process to minimize risks.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and materials before starting.
- Ensure that the work area is welllit and organized.

2. Installation:

- Choose the appropriate bushing size based on your needs. The size is indicated by the last three digits of the part number (#RD73XXX).
- Insert the bushing into the appropriate tool or machine carefully, ensuring a snug fit.
- Secure the bushing according to the tool or machine specifications.

3. Usage:

- When using the bushings, apply consistent and controlled pressure to prevent damage.
- Monitor the operation closely for any signs of malfunction or unusual wear.
- After use, remove the bushings from the tool or machine and inspect them for any signs of damage.

Disposal Instructions

- Dispose of used or damaged bushings in accordance with local waste disposal regulations.
- Do not dispose of bushings in regular household waste. Instead, consider recycling options for metal products.
- Ensure that any sharp edges are covered or marked to prevent injury during disposal.

Contact Information for Further Support

For safety inquiries or additional support regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.288, please refer to the manufacturer's contact information included with your product packaging.

By following these safety instructions, you can help ensure the safe and effective use of your STEEL NECK BUSHINGS. Thank you for your attention to safety!
