

STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.308

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.308](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002023
- Mfr. No.: 73308
- Diameter (in): .308
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760733086

Safety Instructions for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.308

Introduction

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.308. This product is designed for precision and durability in sizing operations. To ensure safe and effective use, please read this safety instruction guide carefully.

General Safety Guidelines

- Ensure that you are familiar with the product and its intended use before operating.
- Always wear appropriate personal protective equipment (PPE) such as safety glasses and gloves when handling and using the bushings.
- Keep the work area clean and organized to prevent accidents.
- Store the bushings in a dry and secure location, away from children and pets.
- Regularly inspect the bushings for any signs of wear or damage before each use.

Specific Safety Precautions for Use

- **Potential Hazards:**
 - Sharp edges may cause cuts or injuries.
 - Improper use may lead to equipment malfunction or personal injury.
- **Avoiding Hazards:**
 - Handle the bushings with care to avoid cuts.
 - Do not exceed the recommended sizing diameters.
 - Ensure that the bushings are properly fitted to the equipment before use.
- **Age Restrictions:**
 - This product is not intended for use by individuals under the age of 18. Ensure that only qualified adults operate the bushings.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools and equipment before starting.
- Ensure that the work area is welllit and free of distractions.

2. Installation:

- Select the appropriate bushing size based on your needs. The sizes range from .185" to .368" in .001" increments.
- Carefully insert the bushing into the sizing die according to the manufacturer's instructions.
- Ensure that the bushing is seated properly and securely.

3. Usage:

- Follow the specific instructions for your reloading or sizing equipment.
- Apply consistent and even pressure when using the bushing to maintain accuracy.
- Monitor the bushing during use for any signs of wear or damage.

4. PostUsage Care:

- Clean the bushings after each use to remove any debris or residue.
- Store the bushings in their original packaging or a secure container to prevent damage.

Disposal Instructions

- Dispose of any damaged or worn bushings in accordance with local regulations.
- Do not dispose of bushings in regular household waste. Check for local recycling options or hazardous waste disposal facilities.

Contact Information for Further Support

For any safety inquiries or further support regarding the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.308, please refer to the contact information provided on the product packaging or visit the manufacturer's website.

By following these safety instructions, you can ensure a safe and effective experience with your STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.308. Thank you for your attention to these guidelines.
