

# STEEL NECK BUSHINGS - REDDING 73 STYLE STEEL BUSHING/.242

[Reloading](#) > [Reloading Dies](#) > [Neck Size Bushings](#)

Heat treated steel bushings. The sizing diameters are hand polished with a surface hardness of Rc 60-62 to reduce sizing effort. Bushings are available throughout the range of .185" thru .368" in .001" increments. The last three digits of the part (#RD73XXX) denotes bushing size. View other sizes: .185" to .250" .251" to .305" .306 to .368"

## Determining Redding Bushing Size

The proper bushing size can be easily determined by measuring the outside neck diameter of your loaded cartridges with a precision micrometer or a dial caliper. Then, simply subtract .001" from the cartridge that had the smallest average neck diameter. This diameter bushing will generally size case necks just enough to create the proper press fit for the bullet.

If you are using a Type "S" style die and not turning the outside of your case necks, we suggest using a bushing .002" smaller than your smallest average neck diameter, and using the expander ball included with your Type "S" die. This size bushing will still give you minimal sizing (maximizing the life of your brass) and the expander ball will insure that each cartridge has the same bullet grip.

Redding has found that when you have cases with neck wall thicknesses on the thin side of the SAAMI tolerance, your fired case will measure considerably larger (.006" to .010" larger) than your loaded rounds. In these circumstances, Redding's tests have shown that a bushing .001" larger (than the loaded round) may give you the desired bullet grip.

## Attributes

- Name: [REDDING 73 STYLE STEEL BUSHING/.242](#)
- Manufacturer: [REDDING](#)
- Product no.: 749002026
- Mfr. No.: 73242
- Diameter (in): .242
- Delivery weight: 0.032kg
- Shipping height: 1mm
- Shipping width: 83mm
- Shipping length: 146mm
- UPC: 611760732423

# **Safety Instruction Guide for STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.242**

## **Introduction**

Thank you for choosing the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.242. This product is designed to provide reliable performance for your needs. To ensure your safety and the longevity of the product, please read this safety instruction guide carefully.

## **General Safety Guidelines**

To ensure safe use of the STEEL NECK BUSHINGS, please adhere to the following guidelines:

- Always use the product as intended and according to the specifications provided.
- Inspect the bushings before each use for any signs of wear or damage.
- Store the bushings in a dry and secure location, away from children and pets.
- Follow the manufacturer's recommendations for maintenance and care.
- Be aware of your surroundings when using the product to avoid accidents.

## **Specific Safety Precautions for Use**

When using the STEEL NECK BUSHINGS, please consider the following precautions:

- Ensure that you are wearing appropriate safety gear, such as gloves and safety glasses, to protect against potential injuries.
- Avoid direct contact with sharp edges of the bushings during handling and installation.
- Do not exceed the recommended sizing diameters to prevent damage to the bushings or the equipment being used.
- Keep the work area clean and organized to prevent slips, trips, and falls.
- If you experience any discomfort or difficulty while using the product, stop immediately and consult a professional.

## **Instructions for Installation and Usage**

To properly install and use the STEEL NECK BUSHINGS, follow these steps:

### **1. Preparation:**

- Gather all necessary tools and equipment for installation.
- Ensure that the work area is clean and free from hazards.

### **2. Installation:**

- Select the appropriate bushing size based on your requirements.
- Carefully insert the bushing into the designated area, ensuring a snug fit.
- If necessary, use a suitable tool to secure the bushing in place, following the manufacturer's guidelines.

### **3. Usage:**

- Once installed, use the bushing as per the intended application.
- Regularly check the bushing during use for any signs of wear or damage.

#### 4. PostUse:

- After use, remove the bushing from the equipment and clean it according to the manufacturer's recommendations.
- Store the bushing in a safe location for future use.

## Disposal Instructions

To dispose of the STEEL NECK BUSHINGS responsibly:

- Check local regulations for proper disposal methods for metal products.
- If the bushings are damaged, consider recycling them at a designated facility.
- Do not dispose of bushings in regular household waste.

## Contact Information for Further Support

For any questions, concerns, or safety inquiries regarding the STEEL NECK BUSHINGS, please refer to the manufacturer's contact details provided with the product packaging or on the manufacturer's website.

By following these safety instructions, you can ensure a safe and effective experience with the STEEL NECK BUSHINGS REDDING 73 STYLE STEEL BUSHING/.242. Thank you for your attention to safety.
